Belkin Components

Welcome to Belkin Components!

I'm proud to share with you our new 1997 Edition Catalog.

Within these pages you will find a comprehensive listing of the more than 10,000 outstanding products that our company manufactures and distributes. We take very seriously our position as an industry leader in cable assemblies, computer accessories, peripheral sharing devices and surge protectors. We are excited by our continued commitment to these fine product lines, but also by the opportunity to show you the very best of what is new at Belkin.

Actually, this catalog is only one of several excellent resources available to assist you in finding the right Belkin products for your customers. Our very knowledgeable sales and technical support staff is immediately available to you at **800-223-5546**, and by fax at **310-898-1111**. And our web home page at www.belkin.com is always up to date with the latest product news and developments.

Thanks to your support, 1996 was a record-breaking revenue year; in fact, it was our thirteenth record year in a row! It was also a great year for developing powerful new resources to serve you and your customers even more efficiently and productively.

We finished moving into our wonderful new 250,000 square foot headquarters in California last October. Along with our superb Customer Service team, we now offer an automated order fulfillment system that ships your order in just days, hours or minutes, depending on order size and the number of built-to-order items. To supplement California, we also have a branch office in Georgia, and a European branch located in the United Kingdom.

Belkin offers the widest product range, deepest inventory and best value in the industry. With your continuing partnership, guidance and support, we will keep right on doing it. We look forward to your comments and suggestions. In fact, you can e-mail me directly if you wish at **chetp@belkin.com**. I'd love to hear from you!

Thank you for your continued business and for making us #1 in our market. I've got a feeling that 1997 is going to be another record breaker!

Best regards,

**Chet Pipkin**
President, Belkin Components

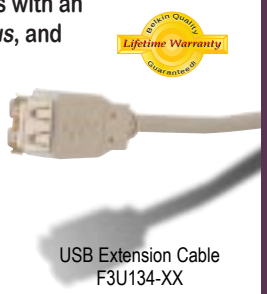
# OmniView™ PS/2

OmniView™ PS/2 (4-Port)
F1D066

The *OmniView™ PS/2* multi-port console puts you in complete control! Operating multiple computers from a single keyboard, monitor and mouse is finally efficient and affordable. Up to 6 PCs can be connected to a single *OmniView™* using standard cables, or add the PS/2 MAC Adapter™, and include all your Macs®, too! A variety of models gives you complete access to all your machines for AT, PS/2 and Macintosh® systems. And if you need to view more than six computers, just cascade multiple *OmniView™* units and control up to 216 different CPUs! Look on page 76 for more information on Belkin's entire *OmniView™* line.

# Universal Serial Bus

USB Cable
F3U133-XX



USB Extension Cable
F3U134-XX

USB Express Bus™
F5U001

***Belkin Introduces the Only Way to Plug-and-Play.***

The new line of Universal Serial Bus products with an advanced 4-port hub dubbed *The Express Bus*, and two additions to its popular *Pro Series* line, a premium quality USB A-B device cable and a proprietary USB extension cable, puts Belkin at the forefront of this exciting new technology.

PCs with USB ports allow computer peripherals to be automatically configured as soon as they are physically attached, without the need to reboot or run Set-up. And, by daisy-chaining devices with additional hubs, this terrific new system allows up to 127 different devices to be connected to a single USB port. It's a whole new standard for plug and play ability, and Belkin has all the right connections! Call your Belkin Sales Representative for more information.

# PC OnCall Remote Access Power Center

PC OnCall™ is an innovative access module for on-the-move users, that gives full remote entry to office and home PC files and systems by phone from anywhere in the world. Upon powering up their computers, users can remotely run programs, check e-mail and faxes, access data, print reports, transfer files, or observe the operations of another PC. It even has programmable touch-tone codes to prevent unwanted access.

PC OnCall™ is the latest in surge protection technology, coming with full 3-line AC protection rated at 850 Joules and a $25,000 connected equipment warranty. It also features a heavy-duty 8' power cord, five outlets, and a static discharge plate. It is UL 1449 approved at 330 volts. For ordering information on this product, go to page 95.

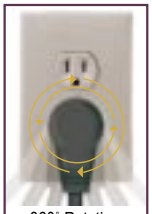
## New Products

### GOLD Series Cables

Belkin continues its industry-leading tradition in quality cables with its latest introduction, *The GOLD Series.* This high-end line establishes a new performance standard for the cable industry and represents the ultimate in product value and reliability. Each cable features gold-plated connectors and contacts for maximum conductivity and error-free transmission. Unsurpassed durability and installation flexibility is provided by our exclusive strain relief polymer and our Flextec™ cable jacket. All Belkin GOLD Series cables come with a Lifetime Belkin Product Warranty! Look on page 18 for more information.

### GOLD Series Surge Protectors

Today's high performance computers and audio video equipment demand the best in power protection and Belkin's *GOLD Series Surge Protectors* deliver just that.



360˚ Rotating
Flat Plug

The SurgeMaster® GOLD Series handles surges, spikes, even lightning strikes! GOLD Series Surge Protectors provide up to 1950 Joules of 3-Line AC Protection as well as offering protection from harmful EMI and RFI line noise. To complete this outstanding line we offer our proprietary 360˚ rotating flat plug, cable management labels, child-safety outlet plugs and Belkin's Lifetime Connected Equipment Warranty. Look on page 96 for more information on Belkin's GOLD Series Surge Protectors!

SurgeMaster™ II GOLD Series
F5C895-TEL

SurgeMaster™ II GOLD Series
F5C795-TEL

### Cellular Accessories

Belkin's comprehensive new line of cellular and PCS accessories was developed with a single goal in mind: *to keep mobile communications mobile.* Along with high quality and low prices, we've provided exceptional selection, offering a product line that truly caters to everyone's cellular product needs.

Items range from high-quality, extended life batteries and custom-fitted leather cases to battery chargers/conditioners and ultra-convenience power cords and accessories. Also available are several specialty items including handset holders and antennas. All accessories come with a full 3-year warranty, with many of the products carrying 5-year protection against defects in materials, workmanship and labor. Look in Section E for more information on Belkin's Cellular Accessories.

### Bulldog Security Kit

Bulldog Security Kit
F8E500

Belkin unleashes a new bulldog for computer security! The *Bulldog Universal Security Kit* is the newest, strongest and most durable theft deterrent security system yet to safeguard valuable computers and home and office electronic equipment. Typical office equipment conveniently secured are personal computers, laser printers, FAX machines, copiers, typewriters and cash registers. At home, the Bulldog is perfect for protecting electronic games, CD players, amps, receivers, TVs and VCRs, home PCs and a variety of sporting equipment.

Built around high-tension steel anchoring plates and an aircraft quality 6' steel cable, the Bulldog lives up to its name with its heavy duty steel lock and super-strength adhesive protection system for a wide variety of equipment and home and office valuables. It even comes with a glow-in-the-dark label to warn would-be burglars that this equipment is staying put! All components carry a Lifetime Belkin Product Warranty! Look on page 117 for more information on the Belkin Bulldog Security Kit.

New Products

360˚ Rotating Flat Plug

SurgeMaster™ II GOLD Series
F5C795-100BT

## Network Surge Protector

As computer systems and network connectivity options become ever more sophisticated, the need for the best power protection technology increases dramatically. Belkin is the leader in surge control, and the *GOLD Series SurgeMaster II™* with *NetGuard™* is tops in the category, with full Category 5 certified protection for your LAN equipment.

SurgeMaster II™ with NetGuard™ features 10/100 Base-T Data Line protection as well as solid-state fax/modem coverage. It is the only surge protector for data lines that handle speeds as high as 100 Mbps! Rated at 1950 Joules of 3-line protection, it also offers EMI/RFI filtration, Block Space™ and a 360˚ rotating plug. It is backed with Belkin's $50,000 Connected Equipment Warranty. Look on page 96 for more information on Belkin's Network Surge Protector.

## Bitronics Data Switch Kit

Finally an easy way to use multiple parallel port devices has arrived! Belkin's new *Bitronics Data Switch Kit* is the easiest and safest way to switch between Bitronics and IEEE 1284 printers, tape backup units, scanners, QuickCams, and EZ Drives - virtually any parallel port device! The Data Switch is also fully reversible, allowing connection of two PCs to a single parallel port device. Turn to page 72 for more information on Belkin's Bitronics Data Switch Kit.

Firewire
F3N101-XX

## Firewire

IEEE-1394 is a new high performance digital standard developed to bridge the traditionally isolated domains of consumer electronics and computers. The convergence of these two realms has exciting implications for the future. The ease of use and versatility of *Firewire* - as it is referred to in the industry - will result in an unprecedented level of interconnectivity. For example, by using Firewire, consumers will be able to easily attach camcorders, cameras and stereos to their computers, printers and other related products. Similarly, Firewire's high speed (starting at 100 Mbps) means that the only limit will be that of your imagination!

Belkin, a member of the IEEE-1394 Trade Association, is a leading developer of IEEE-1394 cables and products. Call your Belkin representative to discuss this and other emerging technologies.

Air Metro™
F1W002

Air Metro™
F1W001

## Air Metro™

*Break through the cabling barrier!*

Air Metro™ wireless printer sharing means no wiring, no installation cost and no software required! It breaks through the cabling barrier with the power of advanced military radio technology, eliminating the need for long parallel cables, parallel extenders or expensive installations. Air Metro™ is guaranteed to print through walls, filing cabinets, furniture, cubicles, even floors and ceilings without errors! With no software to install, it can be plugged in and powered up as quickly and easily as connecting a parallel cable. Flip to page 74 to see more about Belkin's Air Metro™.

## ErgoPAD® Premiere

The *Ergo PAD® Premiere* family of mouse pads and wrist rests reflect Belkin's dedication to developing the highest quality and function in ergonomic products. These products provide both exceptional comfort and full functional safety, and are designed to reduce the likelihood of repetitive motion stress disorders such as Carpal Tunnel Syndrome.

Personal control and comfort is what it's all about! We've even shaped the mouse pad surface with a lateral radius to naturally complement the rolling motion of your wrist as you work. And our Cable Management System routes your mouse cables through an organizer channel hidden below the mouse pad base. An AirFlex™ cushion is the primary support system for the line, with both gel and pump options available. The ErgoPAD® Premiere Pump pads and rests incorporate special Pump-n-Play™ technology for custom individual support, while the Gel products feature our GelFlex™ system for personal therapeutic comfort. All items are covered by a full One-Year Warranty. Check out page 112 for more information on Belkin's ErgoPAD® Premiere line!

## Toolkits

Having the proper tool for the job is as important to the do-it-yourself electronic enthusiast as it is to the professional. Our wide selection of multi-purpose computer tools and accessories makes it simple to perform just about any repair or maintenance task. Upgrades, repairs, proper cleaning, routine maintenance and adjustments are handled with ease.

The tool kits come in assortments of 11, 20, 36, 55, and 65 pieces, respectively. Items included range from multi-piece interchangeable screwdrivers and soldering irons all the way to mini-vacuums and pressurized air canisters. Tools are fully demagnetized to prevent damage to sensitive hard drives and magnetic media, and all items carry a full one-year warranty. Every kit features a durable vinyl zippered carrying case with custom fittings for each tool and accessory. Page 116 has everything you need to know about Belkin's Toolkits.

*Our Sales Representatives will be happy to answer any questions you have! Call (800)-2BELKIN to order!*

## Network In A Box Kit

Everything you need to cable your Ethernet network is now contained in a single box! And the box is from Belkin, the leader in LAN accessories, tools, cables, connectors and kits!

10Base-T/100Base-T
Installation Kit
F4F310

With the *10/100 BASE-T Ethernet Installation Kit,* you get everything required to install your own 10 or 100 Base-T network. Whether expanding a current network, or doing a first-time install, you'll find this kit to be an essential part of your LAN. All of the components are CAT 5 certified and support transmission speeds up to 100 Mbps. This kit also provides for up to 5 additional nodes to your existing network. All of the hardware carries a Lifetime Belkin Product Warranty. Go to page 63 for ordering information on this great Belkin product!

ParaShare® Starter Kit
F4D417

## ParaShare®

The Easiest Printer Sharing Solution!

ParaShare® is the best fully automatic printer sharing system available; no printer switching utilities or hotkey sequences are required. Its modular, plug-and-play design lets you start with a small network, then easily add computers and printers as you grow. It takes only moments to install, and it works with any operating system, any PC, and any parallel printer! For more information on the ParaShare®, look on page 73.

## Notebook Computer Cases

From our all-leather *Executive Carrying Case* to our handsome *Business Traveller Case*, we have exactly the right case for protecting your valuable portable computer. And we also have some terrific accessory kits featuring custom-designed cases containing all the most popular laptop accessories. We even include special compartments for your Zip™ and Jaz™ drives! Look in Section G for the latest designs and the greatest in portability products only available from Belkin!

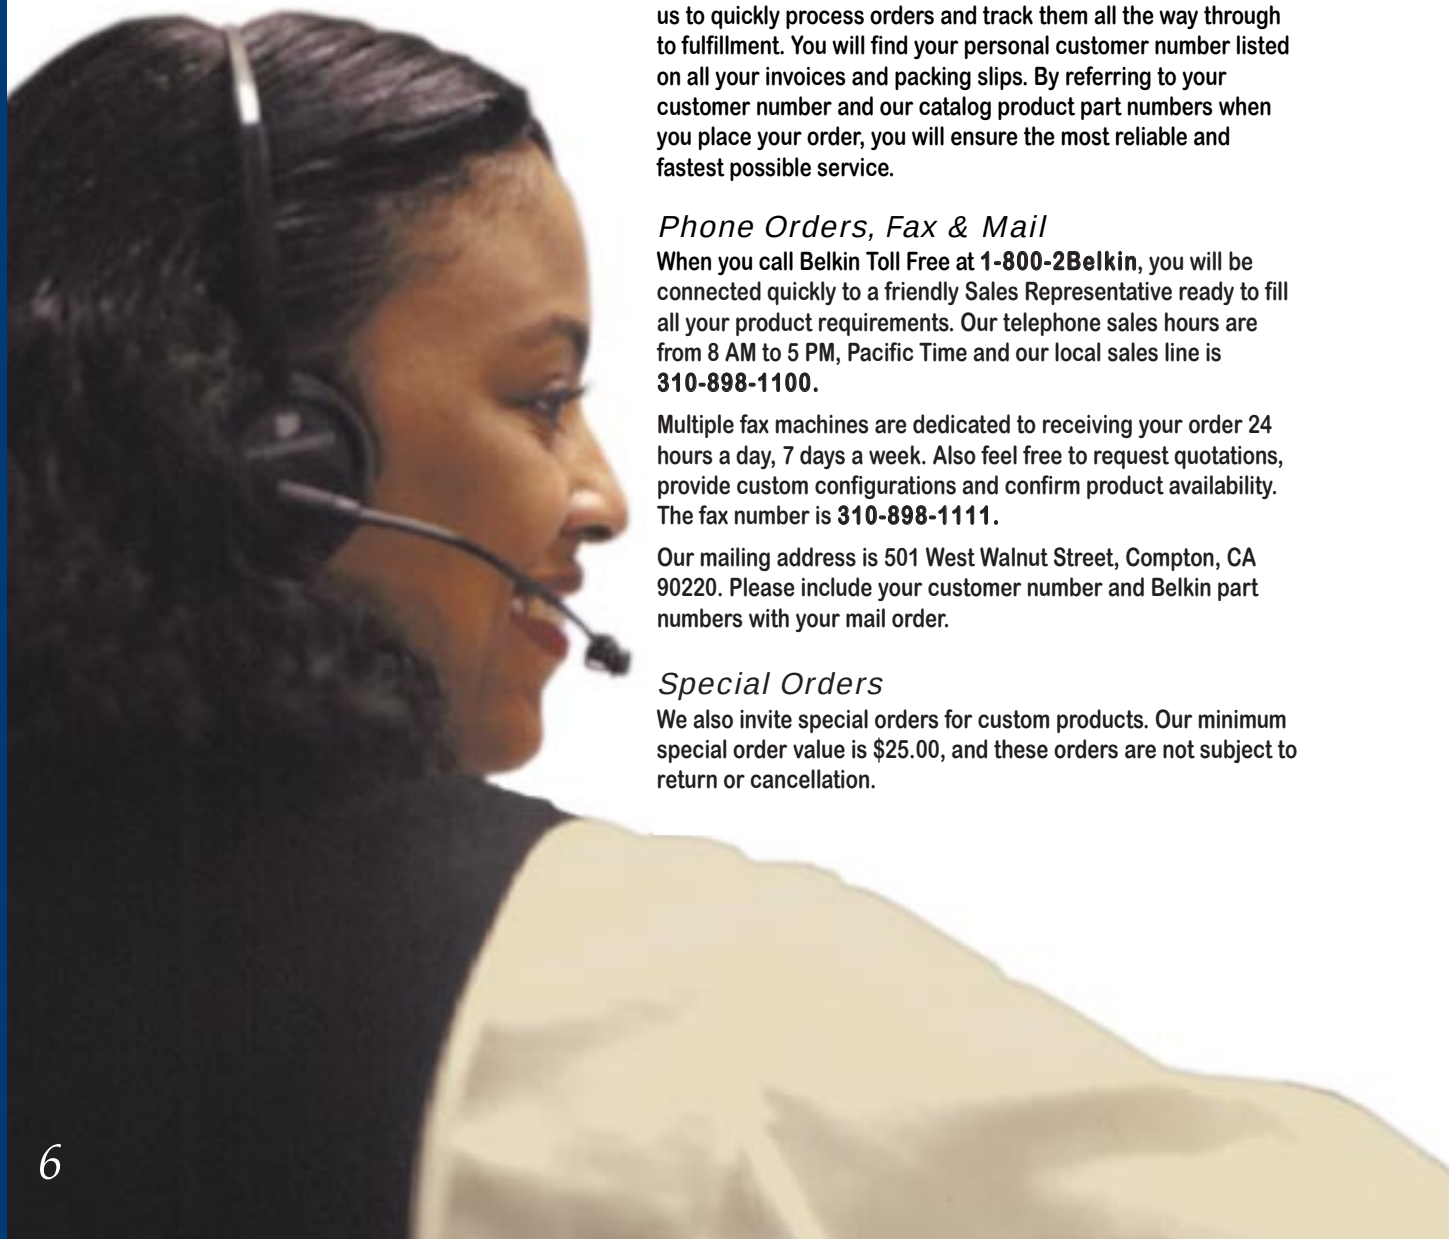
# How to Use This Catalog

***Ordering from Belkin is easy! Our friendly, well-informed sales staff is ready and waiting to answer all your needs. Rush orders of custom cables? No problem. An entire pallet of the latest high-capacity surge protectors? Can do! Maybe you just need advice on which intelligent networking products will maximize your system's performance. We know all about them. Our comprehensive catalog is divided into individual product categories to make ordering fast and easy. If you don't see what you're looking for, just ask us about it. Our high-response sales team will have an answer and a helpful recommendation right away!***



## Placing an Order with Belkin

All of our customers are given a special number which allows us to quickly process orders and track them all the way through to fulfillment. You will find your personal customer number listed on all your invoices and packing slips. By referring to your customer number and our catalog product part numbers when you place your order, you will ensure the most reliable and fastest possible service.

### Phone Orders, Fax & Mail

When you call Belkin Toll Free at **1-800-2Belkin**, you will be connected quickly to a friendly Sales Representative ready to fill all your product requirements. Our telephone sales hours are from 8 AM to 5 PM, Pacific Time and our local sales line is **310-898-1100.**

Multiple fax machines are dedicated to receiving your order 24 hours a day, 7 days a week. Also feel free to request quotations, provide custom configurations and confirm product availability. The fax number is **310-898-1111.**

Our mailing address is 501 West Walnut Street, Compton, CA 90220. Please include your customer number and Belkin part numbers with your mail order.

### Special Orders

We also invite special orders for custom products. Our minimum special order value is $25.00, and these orders are not subject to return or cancellation.

## Shipping

Shipping at Belkin happens fast! Depending on the quantity and the type of product, most orders will ship the same day when placed by noon Pacific time!

Your salesperson will advise you on lead times for custom products when you place your order. Most orders are shipped UPS Ground or via Federal Express, but we will use any carrier you request. Orders may also be prepared for Will Call with a minimum of 3 hours advance notice, depending on the product.

### Drop Shipments

We are pleased to offer drop shipment service to our customers on terms, and we will ship any order directly to your customer on request. Direct fulfillment saves you time and eliminates additional shipping and handling costs. Orders are processed rapidly with a packing slip containing both our company name and yours.

## Payment terms

### COD Orders and Open Accounts

COD orders may be placed at any time, and unless otherwise specified are payable by company check, cashier's check or by cash.

Open Account terms are available to all qualified distributors and resellers of computer and telecommunications products. Terms commence on receipt and approval of a completed Belkin Credit Application, and require approximately three weeks for authorization. Accounts inactive for six months will require credit updating.

### Letter of Credit

Belkin provides worldwide product distribution and we are well-versed in handling Letter of Credit transactions and their special financial requirements.

### Evaluation Units

Selected products are made available for a 30-day trial evaluation. Your sales representative has all the details on our evaluation policy.

# Service and Support

## Merchandise Returns

Returns are handled very efficiently at Belkin! Defective returns are first approved by a staff member of Customer Service and accompanied by an RMA number written on the outside of each shipping package. RMA numbers are available on request from your Account Manager or Sales Representative. All products must be shipped to us freight prepaid; non-defective standard parts are subject to a restocking fee. A credit memo will be issued and mailed to you when the product is received and the return processed. You may then apply the credit toward future purchases; however custom-manufactured products are not refundable or cancelable. This includes products not shipped from stock, and those with custom configurations, lengths, or made to customer-supplied prints or specifications.

## Service & Support

We consistently receive high praise for our customer service and support! And for good reason. Each of our Sales Teams is lead by an experienced Account Manager. When you do business with us, you always have a dedicated group of sales pros who know you and your account personally. They will help you find the right product, give all the relevant information about pricing and delivery, and even suggest product applications. You and your customer receive the best product the first time, and at the best price!

### Technical Support

The number to dial is **310-898-1100**. Belkin has one of the best Technical Support staffs in the industry ready to assist you. But we are also proud of the fact that every member of our Sales Department completes extensive initial product training and then participates in an ongoing program as well. They are terrific at solving most common problems on the spot, and a technical support engineer is always immediately available to handle more difficult inquiries.

### Quality Assurance

Our production personnel are responsible for product quality throughout the entire process, from the first operation to the last. Their pride shows in every product we ship. Each product is tested on the most sophisticated equipment available, and written test results are available on request. In the rare instances where a production error is made, our Quality Control Inspectors are right there to identify and correct the problem before shipment.

### Lifetime Belkin Product Warranty

Lifetime Belkin Product Warranty at Belkin is a solid commitment, not just a catchy customer promise. We offer a hassle-free limited Lifetime Belkin Product Warranty on nearly every one of our products, including Cable Assemblies and Data Switches. In fact, Belkin was the first manufacturer to offer a Lifetime Belkin Product Warranty, and it is one of the reasons why we continue to be an industry leader year after year. Our sales representatives would be happy to offer you the specific details on the excellent warranties we offer on our numerous products.

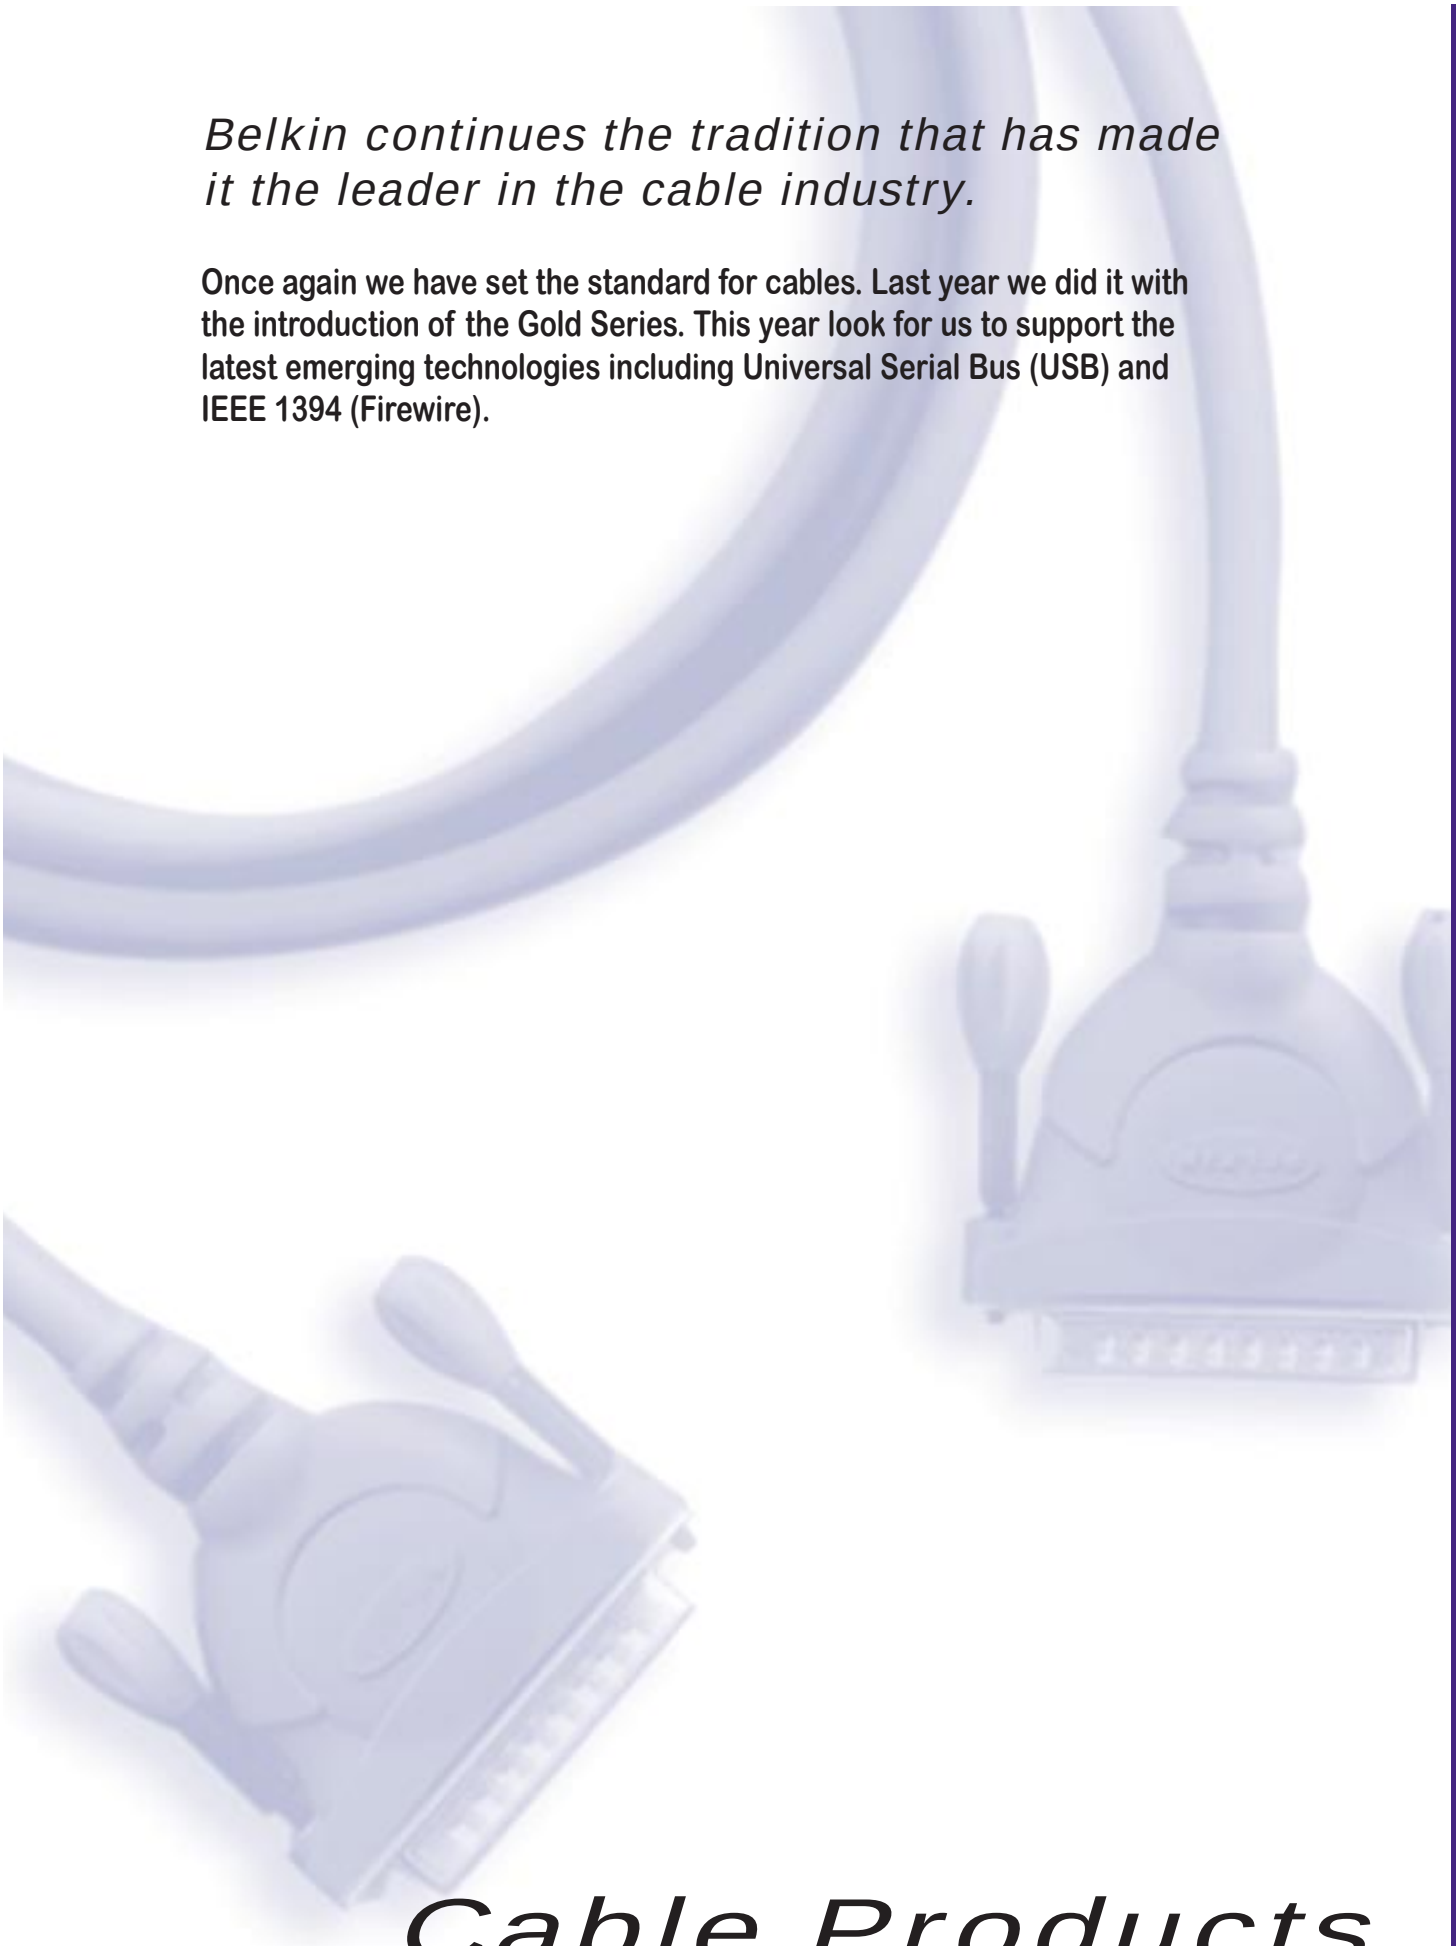
*Belkin continues the tradition that has made it the leader in the cable industry.*

**Once again we have set the standard for cables. Last year we did it with the introduction of the Gold Series. This year look for us to support the latest emerging technologies including Universal Serial Bus (USB) and IEEE 1394 (Firewire).**



# Cable Products

# The Ultimate in Cable Technology!

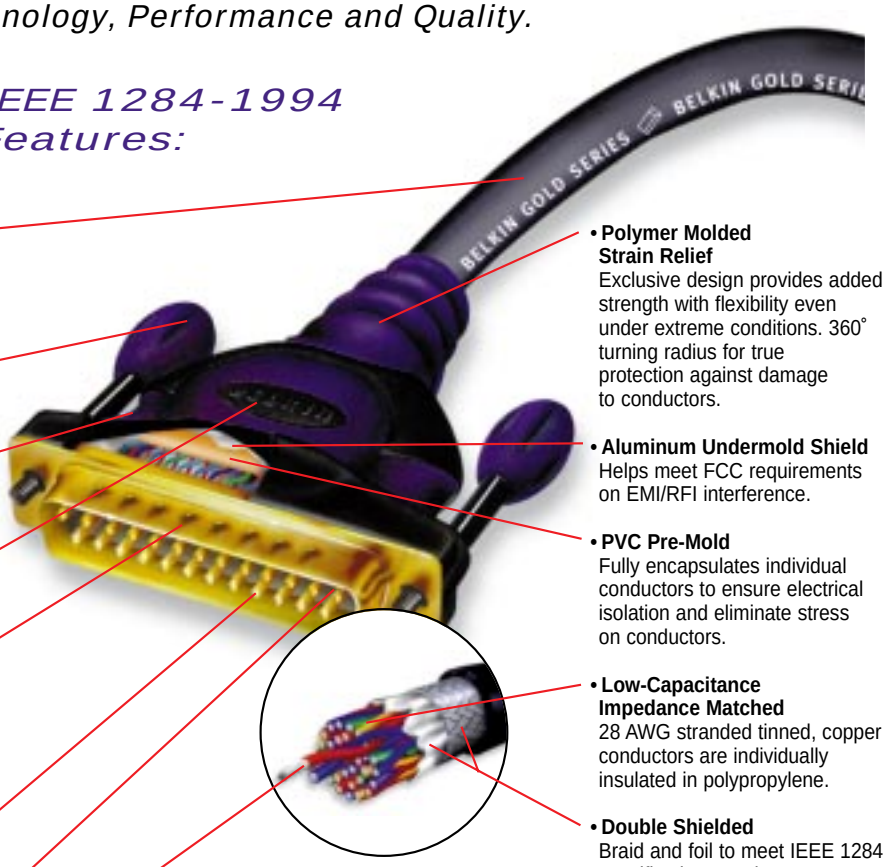
GOLD Series

## The Gold Series.

**The innovative new cable series is the last word in cable technology. Indeed, each cable features gold-plated connectors and contacts for maximum conductivity and error-free data transmission. The exceptional quality continues with our *exclusive* polymer incorporated in the strain relief and other high stress areas, and our Flextec™ cable jacket that provides unsurpassed durability, yet is flexible enough for even the most cramped installations.**

*The Gold Series from Belkin.*
*At the Top in Technology, Performance and Quality.*

## This Belkin IEEE 1284-1994 Gold Cable Features:



- **Flextec™ PVC Rubberized Cable Jacket**
  Provides added durability yet flexible enough for use in tight areas.
- **Oversized Ergonomic Thumbscrews**
  Enable easy installation.
- **Exclusive Polymer Overmold**
  Supple polymer designed to increase flexibility while maintaining durability.
- **The Belkin Name and Part Number**
  Your assurance of quality.
- **Ground Indents**
  Provide excellent conductivity and retention with mating connector.
- **Gold-Plated Copper Contacts**
  Provide maximum conductivity, with no data loss.
- **Gold-Plated Corrosion-Proof Connectors**
  Maximize conductivity.
- **Polymer Molded Strain Relief**
  Exclusive design provides added strength with flexibility even under extreme conditions. 360˚ turning radius for true protection against damage to conductors.
- **Aluminum Undermold Shield**
  Helps meet FCC requirements on EMI/RFI interference.
- **PVC Pre-Mold**
  Fully encapsulates individual conductors to ensure electrical isolation and eliminate stress on conductors.
- **Low-Capacitance Impedance Matched**
  28 AWG stranded tinned, copper conductors are individually insulated in polypropylene.
- **Double Shielded**
  Braid and foil to meet IEEE 1284 specifications, and ensure compliance with FCC requirements, reducing EMI/RFI.
- **18 Tightly Woven Conductor Pairs**
  Unlike other printer cables, Belkin IEEE cables have each data line paired with a ground line to minimize cross talk, noise and other interference, ensuring error-free print jobs.

### *Lifetime Belkin Product Warranty*

*For the life of the product Belkin warrants that this cable shall be free of defects in design, assembly, material and workmanship, or it will be replaced free of charge.*

# Belkin GOLD Series Cables

## IEEE 1284 Parallel Printer Cables

*DB25 Male/36 Position Centronics Male*

**All the major printer manufacturers are now shipping product with the new IEEE 1284-1994 parallel ports. This exciting new standard was developed to support high speed bi-directional communication between computers and parallel printers. Cable assemblies complying with the new specifications must be manufactured with special low capacitance, impedance-matched, twisted pair, double-shielded cable. The wiring of the cable assembly has also been modified and a new connector type (36-position micro centronics) has been developed as part of the specification.**

**There are three parallel printer connectors that you need to know about. PC-compatible computers use a DB25 female connector for the parallel port. This connector is commonly referred to as the "A" connector in the 1284 specification. The parallel port on nearly all parallel printers is a 36 position centronics female connector, known as a "B" connector. The new, third connector is a 36 position micro centronics female connector called the "C" connector.**

## Direct Cable Connection for Windows 95®

*DB25 Male/DB25 Male*

**Belkin's Direct Cable Connection lets you unleash the full potential of Windows 95®. This high-quality cable allows two computers to share files, folders and peripherals such as e-mail, modems and CD-ROM drives. By connecting this cable to two parallel ports, you will enjoy the full power and flexibility that only Belkin and Microsoft® can offer!**

# PRO Series - Common PC Connectors

| Connector on Device | Most Common Uses |
|---|---|
|  DB25 Female | Used as the parallel port for PCs, XTs, ATs, PS/2, and compatible computers with a DB25 female connector. Serial port on most printers, terminals, main frames, modems. |
|  DB25 Male | Used as the serial port for PC, XT, PS/2, and compatible computers with a DB25 male connector. |
|  DB9 Male | Used as the serial port for AT, and compatible computers with a DB9 male connector. |
|  DB9 Female | Used as the EGA monitor port for PC, XT, AT and compatible computers with a DB9 female connector. |
|  High Density DB15 Female | Used as the VGA port for PS/2 and compatibles with a High Density DB15 female connector. Commonly mistaken for a standard DB15 connector.* |
| 5 Pin Din Female | Used as the keyboard port for PC, XT, AT and compatible computers with a 5 pin din female connector. |
| 6 Pin Mini Din Female | Used as the keyboard port for PS/2 and compatible keyboards with a 6 pin mini din female connector. |
|  36 Position Centronics Female | Used as the parallel port for most IEEE and Non-IEEE compatible parallel printer ports. Mating connector commonly referred to as the "B" connector. |
|  36 Position Micro Centronics Female | Used as the parallel port on some IEEE parallel ports. Mating connector commonly referred to as the "C" connector. |

**** A High Density DB15 connector has 15 contacts housed in a DB9 connector sized shell. There are three rows, 5 pins in each row.***

# Belkin PRO Series Cables

**Belkin PRO Series cables have a certain assurance and excellence about them that is immediately obvious. It is the proprietary look and feel of unsurpassed quality.**

**Our exclusive wiring design and superior cable technology guarantee peak performance and optimal data transmission.**

# PRO Series - Parallel Printer Cables

**Belkin parallel printer cables interface AT and PS/2 compatible computers with DB25 female parallel ports and to all Hewlett Packard and compatible printers with 36 position centronics female parallel ports. Our PRO Series cables are fully molded and shielded to meet rigid FCC requirements. In fact, we're so confident of our manufacturing and quality assurance standards, that we offer a full Lifetime Belkin Product Warranty!**

**Belkin uses only the highest quality shielded bulk cable and connectors to insure data transmission in all environments. They are available in 6, 10, 15, 20, and 25 foot lengths, and they feature DB25 male/36 position centronics male connectors.**

**NOTE:** See pages 22 for a listing of Belkin's ***IEEE 1284 compliant printer cables.***

Non-IEEE Bi Directional Parallel Printer Cable
F2A032-XX

## *Non-IEEE Bi-Directional Parallel Printer Cables*

| F2A034-10 | Pro PC Parallel Printer Cable, Right Angle, 10' | 7-22868-10382-1 |

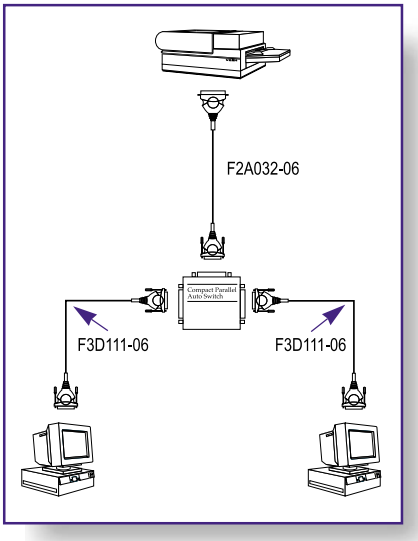
## *Non-IEEE Compatible Notebook/Laptop Parallel Printer Cable*

*DB25 Male/36 Position Centronics Male*

**Constructed with 26 AWG wire, molded on both ends and designed with a supple, flexible PVC jacket for easy storage in a notebook bag.**

| | | |
|---|---|---|
| F2A031-02 | Premium PC Compatible Notebook/Laptop Parallel Printer Cable, 30" | 7-22868-10001-1 |

Standard Parallel Printer Cable
F2A036-XX



25 Conductor, Straight-Through Cable Assembly
F3D111-XX

## Standard Parallel Printer Cables *DB25 Male/36 Position Centronics Male*

**Constructed with 28 AWG wire and molded on both ends. Bi-directional.**

| | | |
|---|---|---|
| F2A036-06 | Standard PC Parallel Printer Cable, 6' | 7-22868-10381-4 |
| F2A036-10 | Standard PC Parallel Printer Cable, 10' | 7-22868-10382-1 |

## Assembled Parallel Printer Cables *DB25 Male/36 Position Centronics Male*

**Constructed with 28 AWG wire. The DB25 male connector end comes with thumbscrews, but the cable assembly is non-molded on both ends. This cable is not bi-directional.**

| | | |
|---|---|---|
| F2A032-06-E | Assembled Parallel Printer Cable, 6' | 7-22868-10270-1 |
| F2A032-10-E | Assembled Parallel Printer Cable, 10' | 7-22868-10271-8 |
| F2A032-15-E | Assembled Parallel Printer Cable, 15' | 7-22868-11256-4 |
| F2A032-25-E | Assembled Parallel Printer Cable, 25' | 7-22868-11263-2 |

## Straight-Through Data Switchbox Cables

**Belkin produces multi-purpose Straight-Through cable assemblies in a variety of lengths. These are used when devices require straight-through cable assemblies, or when interfacing PCs and peripherals with manual data transfer switches or autoswitches. All cables listed below feature DB25 connectors with their respective genders and wiring configurations listed.**

### 25 Conductor, Straight-Through Cable Assemblies *Male/Male*

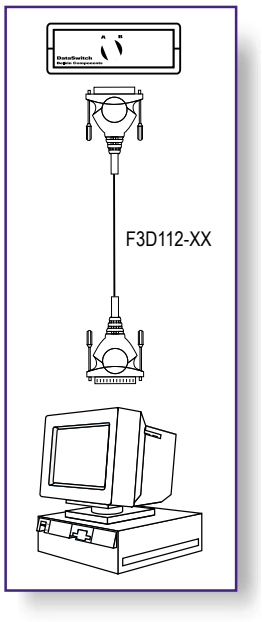
| | | |
|---|---|---|
| F3D111-06 | RS232 DB25 Cable Straight-Through, Male/Male, 6' | 7-22868-10052-3 |
| F3D111-10 | RS232, DB25 Cable Straight-Through, Male/Male, 10' | 7-22868-10054-7 |
| F3D111-15 | RS232, DB25 Cable Straight-Through, Male/Male, 15' | 7-22868-10056-1 |
| F3D111-20 | RS232, DB25 Cable Straight-Through, Male/Male, 20' | 7-22868-10058-5 |
| F3D111-25 | RS232, DB25 Cable Straight-Through, Male/Male, 25' | 7-22868-10060-8 |
| F3D111-50 | RS232, DB25 Cable Straight-Through, Male/Male, 50' | 7-22868-10746-1 |

# PRO Series - Straight-Through Data Switchbox Cables

## 25 Conductor, Straight-Through Cable Assemblies — Male/Female

**DB25 Male/Female cables can be used as cable extensions or as PC-to-modem cables, part number F2J088-XX.**

| | | |
|---|---|---|
| F3D112-06 | RS232, DB25 Cable Straight Through, Male/Female, 6' | 7-22868-10064-6 |
| F3D112-10 | RS232, DB25 Cable Straight Through, Male/Female, 10' (Equiv. to HP® #17355D.) | 7-22868-10066-0 |
| F3D112-15 | RS232, DB25 Cable Straight Through, Male/Female, 15' | 7-22868-10068-4 |
| F3D112-20 | RS232, DB25 Cable Straight Through, Male/Female, 20' | 7-22868-10070-7 |
| F3D112-25 | RS232, DB25 Cable Straight Through, Male/Female, 25' | 7-22868-10072-1 |
| F3D112-30 | RS232, DB25 Cable Straight Through, Male/Female, 30' | 7-22868-11730-9 |
| F3D112-50 | RS232, DB25 Cable Straight Through, Male/Female, 50' | 7-22868-10071-4 |



## 25 Conductor, Straight-Through Cable Assemblies — Female/Female

| | | |
|---|---|---|
| A3D113-06 | RS232, DB25 Cable Straight Through, Female/Female, 6' | 7-22868-12195-5 |
| A3D113-10 | RS232, DB25 Cable Straight Through, Female/Female, 10' | 7-22868-11952-5 |

## Centronics Data Switch Cables — 36 Position Centronics Male/Male

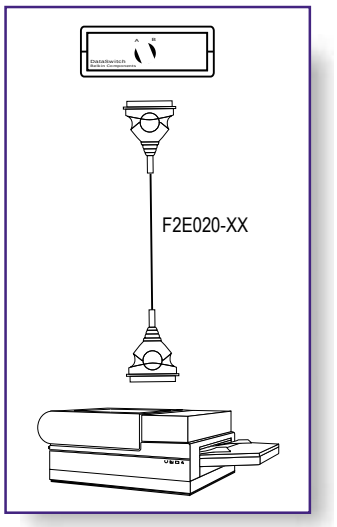
**Commonly used to interface a parallel data switch with a 36-position centronics female connector to a parallel printer with the corresponding 36 position centronics female connector.**

| | | |
|---|---|---|
| F2E020-06 | Centronics Switchbox Parallel Printer Cable, Molded, 6' | 7-22868-10012-7 |
| F2E020-10 | Centronics Switchbox Parallel Printer Cable, Molded, 10' | 7-22868-10014-1 |
| F2E020-15 | Centronics Switchbox Parallel Printer Cable, Molded, 15' | 7-22868-12240-2 |
| A2E017-XX | Centronics Parallel Printer Cable, Assembled. Substitute "XX" in cable assembly part number with desired length in feet. | Custom |

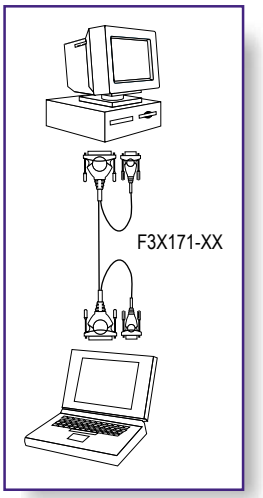
Centronics Data Switch Cable
F2E020-XX

## Centronics Parallel Extension Cables — 36 Position Centronics Male/Female

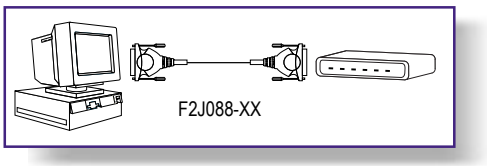
| | | |
|---|---|---|
| F2E021-06 | Centronics Switchbox Parallel Extension Cable, Molded, 6' | 7-22868-10700-3 |
| F2E021-10 | Centronics Switchbox Parallel Extension Cable, Molded, 10' | 7-22868-10701-0 |
| A2E018-XX | Centronics Switchbox Parallel Extension Cable, Molded, Custom Length | Custom |



Direct Cable Connection for Windows 95®
F3D508-10



PC Serial Modem Cable
F2J088-XX



## File Transfer Cables

### Direct Cable Connection for Windows 95®

**Belkin's Direct Cable Connection lets you unleash the full potential of Windows 95®. This high-quality cable allows two computers to share files, folders and peripherals such as e-mail, modems, and CD-ROM drives. By connecting this cable to two parallel ports, you will enjoy the full power and flexibility that only Belkin and Microsoft® can offer.**

| | | |
|---|---|---|
| F3D508-06 | DB25 Male/DB25 Male Cable, 6' | 7-22868-10748-5 |
| F3D508-10 | DB25 Male/DB25 Male Cable, 10' | 7-22868-10497-2 |

(See page 19 for our ***GOLD Series Direct Cable Connection for Windows 95®***)

### Laplink/Interlink Serial Cables

**Allows two computers with either DB9 Male or DB25 Male Serial Ports to transfer files to one another.**

| | | |
|---|---|---|
| F3X171-10 | DB9 Female, DB25 Female/ DB9 Female, DB25 Female, 10' | 7-22868-10499-6 |
| A3X171-XX | DB9 Female, DB25 Female/ DB9 Female, DB25 Female, Custom Length | Custom |
| F3B207-06 | Interlink/Laplink DB9 Female/ Female, 6' | 7-22868-11359-2 |
| F3B207-10 | Interlink/Laplink DB9Female/ Female, 10' | 7-22868-10495-8 |

## Serial Modem Cables

### PC Serial Modem Cables — *DB25 Female/Male*

**Interfaces PCs with DB25 male serial ports and to Hayes® and compatible external modems with DB25 female ports.**

| | | |
|---|---|---|
| F2J088-06 | PC/Modem Cable, 6' | 7-22868-10315-9 |
| F2J088-10 | PC/Modem Cable, 10' | 7-22868-10018-9 |
| F2J088-25 | PC/Modem Cable, 25' | 7-22868-12095-8 |
| A2J088-XX | PC/Modem Cable, Custom Length | Custom |

### AT Serial Modem Cables — *DB9 Female/DB25 Male*

**Interfaces ATs with DB9 male serial ports to Hayes® and compatible external modems with DB25 female ports.**

| | | |
|---|---|---|
| F2L088-01 | AT Serial Adapter Cable, 1' | 7-22868-10025-7 |
| F2L088-06 | AT Serial Modem Cable, 6' | 7-22868-10022-6 |
| F2L088-10 | AT Serial Modem Cable, 10' | 7-22868-10024-0 |
| F2L088-25 | AT Serial Modem Cable, 25' | 7-22868-11217-5 |
| A2L088-XX | AT Serial Modem Cable, Custom Length | Custom |

## Serial Printer Cables

### PC Serial Printer Cables — DB25 Female/Male

**Interfaces PCs with DB25 male serial ports, with HP® LaserJet, Epson®, and compatible serial printers with DB25 female ports. Equivalent to HP® cable assembly #17255D. Not for use with the HP® 7550a series plotters.**

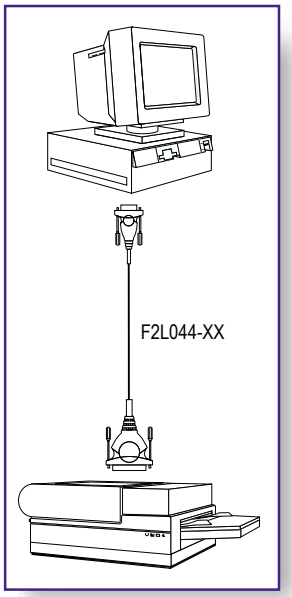
| | | |
|---|---|---|
| F2J044-06 | PC/HP® LaserJet and Plotters Cable, 6' | 7-22868-10019-6 |
| F2J044-10 | PC/HP® LaserJet and Plotters Cable, 10' | 7-22868-10020-2 |
| A2J044-XX | PC/LaserJet Cable, Custom Length | Custom |

AT Serial Printer Cable
F2L044-XX

### AT Serial Printer Cables — DB9 Female/DB25 Male

**Interfaces ATs with DB9 male serial ports, with the HP® LaserJet, Epson®, and compatible serial printers with DB25 female ports. Not for use with the HP® 7550a series plotters.**

| | | |
|---|---|---|
| F2L044-06 | AT/HP® LaserJet and Plotter Cable, 6' | 7-22868-10027-1 |
| F2L044-10 | AT/HP® LaserJet and Plotter Cable,10' | 7-22868-10026-4 |
| A2L044-20 | AT/HP® LaserJet Cable, Custom Length, 20' | 7-22868-10560-3 |
| A2L044-25 | AT/HP® LaserJet Cable, Custom Length, 25' | 7-22868-10951-9 |
| A2L044-30 | AT/HP® LaserJet Cable, Custom Length, 30' | 7-22868-10984-7 |
| A2L044-50 | AT/HP® LaserJet Cable, Custom Length, 50' | 7-22868-10561-0 |
| A2L044-100 | AT/HP® LaserJet Cable, Custom Length, 100' | 7-22868-10559-7 |



## Adapter Blocks

### AT Serial Adapter Blocks — DB9 Female/DB25 Male

**Converts an AT with a DB9 male serial port to a DB25 male port. Allows the use of PC serial printer and modem cables to interface with the AT DB9 male serial port. The AT Adapter Block has the same pin and connector configuration as the AT Serial Modem Cable on page 27, but is similar to a gender changer and is not a cable.**

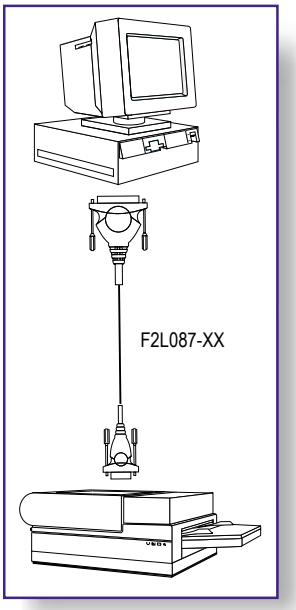
| | | |
|---|---|---|
| F2L088 | DB9 Female/DB25 Male AT Serial Adapter Block | 7-22868-10023-3 |
| F2L088-01 | DB9 Female/DB25 Male AT Serial Adapter Cable, 1' | 7-22868-10025-7 |

### Reverse Gender AT Serial Adapter Blocks — DB9 Female/DB25 Female

**Converts DB9 male port to DB25 female port.**

| | | |
|---|---|---|
| F2L089 | DB9 Female/DB25 Female AT Serial Adapter Block | 7-22868-10267-1 |

Reverse Gender AT Serial Adapter Block
F2L089



## Reverse Gender AT Serial Adapter Blocks - Continued

| | | |
|---|---|---|
| F2L089-01 | DB9 Female/DB25 Female AT Serial Adapter Cable, 1' | Custom |

Converts DB9 female port to DB25 female port.

| | | |
|---|---|---|
| F2L087 | DB9 Male/DB25 Female AT Serial Adapter Block | 7-22868-10266-4 |

Converts DB9 female port to DB25 male port.

| | | |
|---|---|---|
| A2L086 | DB9 Male/DB25 Male AT Serial Adapter Block | 7-22868-10563-4 |

**NOTE:** Not to be used to convert a serial port to a parallel port.

## PC Serial/Macintosh® Serial Printer Cables

**These cables are used to interface from a PC, AT, or Macintosh® Serial Computer Port, to HP® LaserJet 4P or HP® LaserJet 4 Plus Serial Printers with a DB9 female serial port.**

| | | |
|---|---|---|
| F2L087-06 | PC to HP® LaserJet 4 Serial Cable, 6', DB25 Female/DB9 Male | 7-22868-10818-5 |

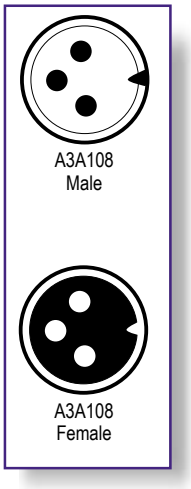
### Compaq® Monitor Power Extension Cable

*3 Pin Din Male/ 3 Pin Din Female*

| | | |
|---|---|---|
| A3A108-06 | Compaq® Monitor Power Extension Cable, 6' | 7-22868-12531-1 |



# Universal Serial Bus Cables

As a member of the Universal Serial Bus Implementers Forum (USB-IF), Belkin Components is instrumental in the development of USB cables and devices.

Universal Serial Bus is designed as a single interface for mice, keyboards, modems, and other devices.

- Plug-and-Play Technology
- Compatible with Windows 95®
- Hot Pluggable
- Consolidates Serial, Parallel, Keyboard, Mouse, and Game Ports
- Broad Industry Support including Intel®, Microsoft®, and PC®
- Supports up to 127 Devices in Daisy-chain Configuration
- Low-Cost 12 Mbps Bandwidth

*How to order F3UABC-XX:*

| AWG | Shield | Connector Type |
|---|---|---|
| 1 = 20/28 AWG | | 1 = A-A |
| 2 = 22/28 AWG | 2 = Single Shield | 2 = A-Pigtail |
| 3 = 24/28 AWG | 3 = Double Shield | 3 = A-B |
| 4 = 26/28 AWG | | 4 = A-Extension |
| 5 = 28/28 AWG | | XX = Length |

## Gender Changers

**Gender changers are used to interface two cable assemblies or a cable assembly and a device that have the same genders. For example, a male/male gender changer will allow two cable assemblies or a cable assembly and device with female connectors to connect together. The gender changers below feature all lines wired straight-through point to point. (Except F4A602.)**

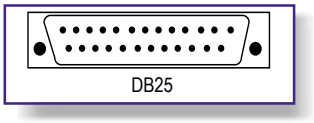
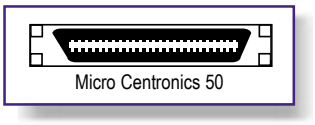
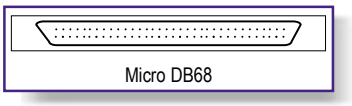
# Common SCSI Cables and Applications



Used as the controller port for Macintosh® (except Powerbook) and Future Domain.

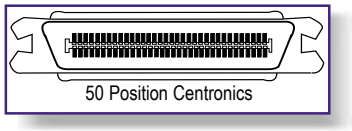


A very uncommon connector. Most frequently seen on SCSI II peripheral devices distributed in Japan.

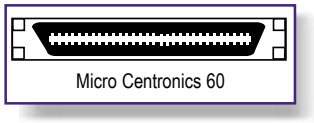


This connector is used extensively as the controller port and the peripheral port on most SCSI III (Fast/Wide) devices. It comes either with thumbscrews as shown here, or with latch screws.

The thumbscrew style connector is by far the more popular. Make sure you know which style is on your particular device.

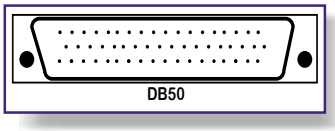


The most common SCSI connector. Used on most SCSI I peripherals and many SCSI II peripherals. Commonly referred to as the SCSI I connector.



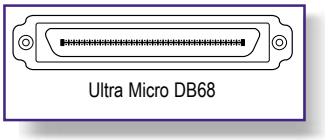
(PC Style)

This connector is used as the controller port on the PS/2 (models 55 and 60 microchannel) and also on RS/6000.

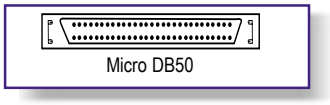


Most commonly used as the controller port on Sun Workstations, types 3 and 4.

The SCSI connection port on the Apple® Powerbook.



New SCSI III connector currently being used as SCSI controller port on certain file servers.



Also widely known as the "SCSI II connector." Used as the controller port on most SCSI II devices and peripherals such as Sun® Sparc station, Adaptec 1640+, DEC 5000, and many others.

This connector is used as the SCSI III controller port on the PS/2 model 95, and will likely be used as the controller port on future PC devices.

## SCSI I Cables

**Belkin supports both entry level and Premium Standard SCSI cables. Our Premium SCSI cables are constructed of impedance matched, low-capacitance twisted pair, double-shielded cable and are denoted by a "P" at the end of the part number. These premium cables are rated for SCSI II applications. Entry level SCSI cables are not double-shielded or made of twisted pair construction.**

## Parallel to SCSI Adapter!

F5B0[illegible]

It's the perfect, inexpensive way to connect up to 7 SCSI devices to any parallel port! Whether you're a notebook user on the go, or simply need an economical way to connect your SCSI devices, the Parallel to SCSI Adapter is the best choice! Look on page 82 for ordering information on this great Belkin product.

# Multi-Purpose Cables & Related Products

## Modular Adapter Kits

**Modular Adapters are used in data communications for a variety of applications, and are an economical method of converting a D-Subminiature port/cable assembly to a modular RJ11, RJ12 or RJ45 jack. Because most data communication applications employ fewer than eight active lines (pins), use of modular adapters organize and simplify moves and changes of data communication equipment. When installed on data equipment, our modular adapters allow users to use low-cost modular twisted pair cabling. Belkin's modular adapters are available in kit form with and without the appropriate D-subminiature connector. They are also available pre-pinned per your specifications.**

Twin-Axial Cable Assembly
A3K601-XX

## Twin-Axial Cable Assemblies

**Twin-Axial cable assemblies are used in PC System 34, 36, 38, 5250, AS/400 and other applications. These cable assemblies are constructed of 100 Ohm twin-axial cable with twin-axial male or female connectors. Choose from our standard cables below or we'll produce these per your length requirement. Available in PVC or Plenum versions.**

| | | |
|---|---|---|
| A3K601-10 | Twin-Axial 100 Ohm Cable, Male/Male, 10' | Custom |
| A3K601-10-P | Twin-Axial 100 Ohm Cable, Male/Male, 5' Plenum | Custom |
| A3K602-10 | Twin-Axial 100 Ohm Cable, Male/Female, 10' | Custom |

## 25 Pair Telco Cable Assemblies

**25 Pair Telco cable assemblies feature a 50 position Telco-style connector. 25 Pair Telco assemblies are generally installed in wiring closets to connect patch panels, punch down blocks and similar applications. Substitute "XX" in part number with desired cable length.**

| | | |
|---|---|---|
| A3L021-XX | 25 Pair Telco-Style Cable, 50 Position Male/Male, Cat 2 | Custom |
| A3L022-XX | 25 Pair Telco-Style Cable, 50 Position Male/Female, Cat 2 | Custom |
| A3L023-XX | 25 Pair Telco-Style Cable, 50 Position Female/Female, Cat 2 | Custom |
| A3L031-XX | 25 Pair Telco-Style Cable, 50 Position Male/Male, Cat 4 | Custom |
| A3L032-XX | 25 Pair Telco-Style Cable, 50 Position Male/Female, Cat 4 | Custom |

## 50 Pair Telco Cable Assemblies

**50 Pair Telco Cable assemblies feature two 50 position Telco-style connectors on both ends. Generally used in voice applications. Substitute "XX" in part number with desired cable length.**

| | | |
|---|---|---|
| A3L051-XX | 50 Pair Telco Cable Assembly, 2 50 Position Male/Male | Custom |
| A3L052-XX | 50 Pair Telco Cable Assembly, 2 50 Position Male/Female | Custom |
| A3L053-XX | 50 Pair Telco Cable Assembly, 2 50 Position Female/Female | Custom |
| A3L054-XX | 50 Pair Telco Cable Assembly, 2 50 Position Male/Unterminated End | Custom |

## Modular Cable Assemblies

# PRO Series - Common Macintosh® Connectors

| Connector on Device | Most Common Uses |
|---|---|
| 8 Pin Mini Din Female | Used as the serial printer and modem port for Mac+, Mac SE, Mac SE 30, Mac II family of products. Also used as the printer serial port for the Imagewriter® II, LaserWriter® IINT, IINTX, HP® Deskwriter and Apple® Personal Modem. |
|  DB25 Female | Used as the serial printer port for the Imagewriter® 1, Original LaserWriter® and LaserWriter®+, Apple® IIe (super serial). Also used as the SCSI port on the Mac II series of computers. |
|  DB9 Female | Used as the serial port for the Mac® 128/512k models. Also used as an alternative serial port on the original LaserWriter® and LaserWriter®+. |
| 5 Pin Din Female | Used as the serial port on the original Apple® IIC. |
|  High Density DB15 Female | Used as the monitor port on most monitor cards for Mac II series computers. |
|  50 Position Centronics Female | Used as the SCSI port on most SCSI peripherals (hard drives, floppy drives and scanners). |
| 4 Pin Mini Din Female | Used as the ADB port on the Apple® Mac II series and SE computers for keyboard and mouse attachment. |
| 3 Pin Mini Din Female | Used on AppleTalk®/LocalTalk® networking nodes/connector kits. |
| RJ-11 | Used for QuikNet™ or PhoneNet™ compatible networking. |
| HDI-30 | Used as a SCSI port on Apple® Powerbooks. |

**As the definitive leader in connectivity products, Belkin Components is committed to supplying the entire spectrum of Apple®-related cables and devices.**

Macintosh®/Serial Printer Cable
8 Pin Mini Din Male/Male
F2V024-XX

## Macintosh® Printer and Modem Cables

### Macintosh®/Serial Printer Cables — 8 Pin Mini Din Male/Male

**Interfaces Macintosh® computers with 8 pin mini din female ports to the ImageWriter® II, LaserWriter® II, IINT, IINTX, Apple® Personal Modem, HP® DeskWriter, and all other Apple® peripherals with 8 pin mini din female ports. (Not for use with the original LaserWriter® and LaserWriter® and LaserWriter® +, or LaserWriter® IIsc) Compatible with Apple® part number M0197. (Equivalent HP® #92215S)**

| | | |

| F2V091-06 | Mac®/High Speed Hardware Handshaking Modem Cable, 6' | 7-22868-10396-8 |

### Macintosh®/ImageWriter I, Epson® and Compatible Printer Cables — 8 Pin Mini Din Male/DB25 Male

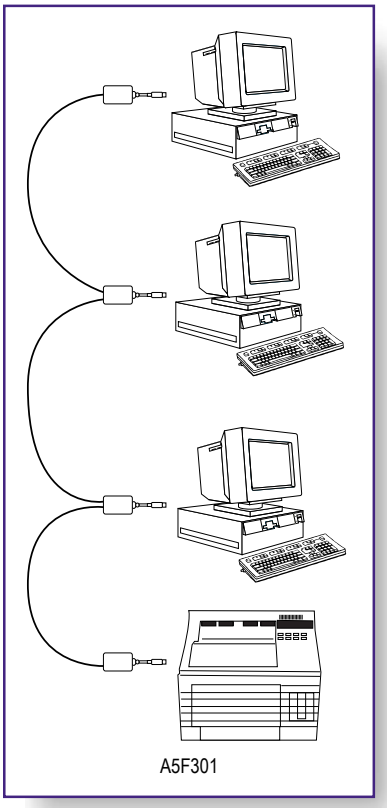
**Interfaces Macintosh® computers with 8 pin mini din female connectors to the Apple® ImageWriter® I, Epson®, HP® LaserJet, and compatible serial printers with DB25 female connectors. Not for use with Epson® EX and LQ series printers.**

| | | |
|---|---|---|
| F2V026-06 | Mac®/Imagewriter I, Epson® Compatible Cable, 6' | 7-22868-10038-7 |

## Get the Most Out of Your Mac®!

**Gone are the days of disconnecting everything just to switch to another printer or computer! Belkin offers Data Switches that allow you to connect 2-4 Macs® to a single peripheral, or 2-4 peripherals to a single Mac®! For more information, flip to page 91!**

QuikNet™ LAN Kit, 8 Pin Mini Din Version
A5F301



A5F301

## Macintosh® Networking

### QuikNet™ LAN Kits - 8 Pin Mini Din Version

QuikNet™ allows Apple® users to network Macintosh® computers, printers and peripherals using inexpensive phone cabling, instead of AppleTalk. Up to 48 users/peripherals may be networked with up to 4,000 feet of cabling with a variety of networking topologies, including daisy chain, backbone and star. The QuikNet™ kit comes with everything needed to install one peripheral or computer, including a 6' modular cable. Installation is as simple as plugging in a phone, and the sophisticated surge suppression technology of QuikNet™ ensures that outside electrical interference won't affect your network's performance. Belkin QuikNet™ Kits are fully compatible with all PhoneNet™ style products (PhoneNet™ model PN308 and HP® #92215N.) US patent #4, 901, 342.

## BelTalk® Kits

**BelTalk® Kits allow up to 32 computers and peripherals to exchange information using up to 1,000 feet of cabling. BelTalk® Kits feature a 100% LocalTalk® (AppleTalk®) compatible transceiver, 6' AppleTalk®-style cable assembly and a coupler. Since our BelTalk® units are fully AppleTalk® compatible, they may be used in conjunction with AppleTalk® connector kits or our QuikNet™ transceivers for expansion of existing networks.**

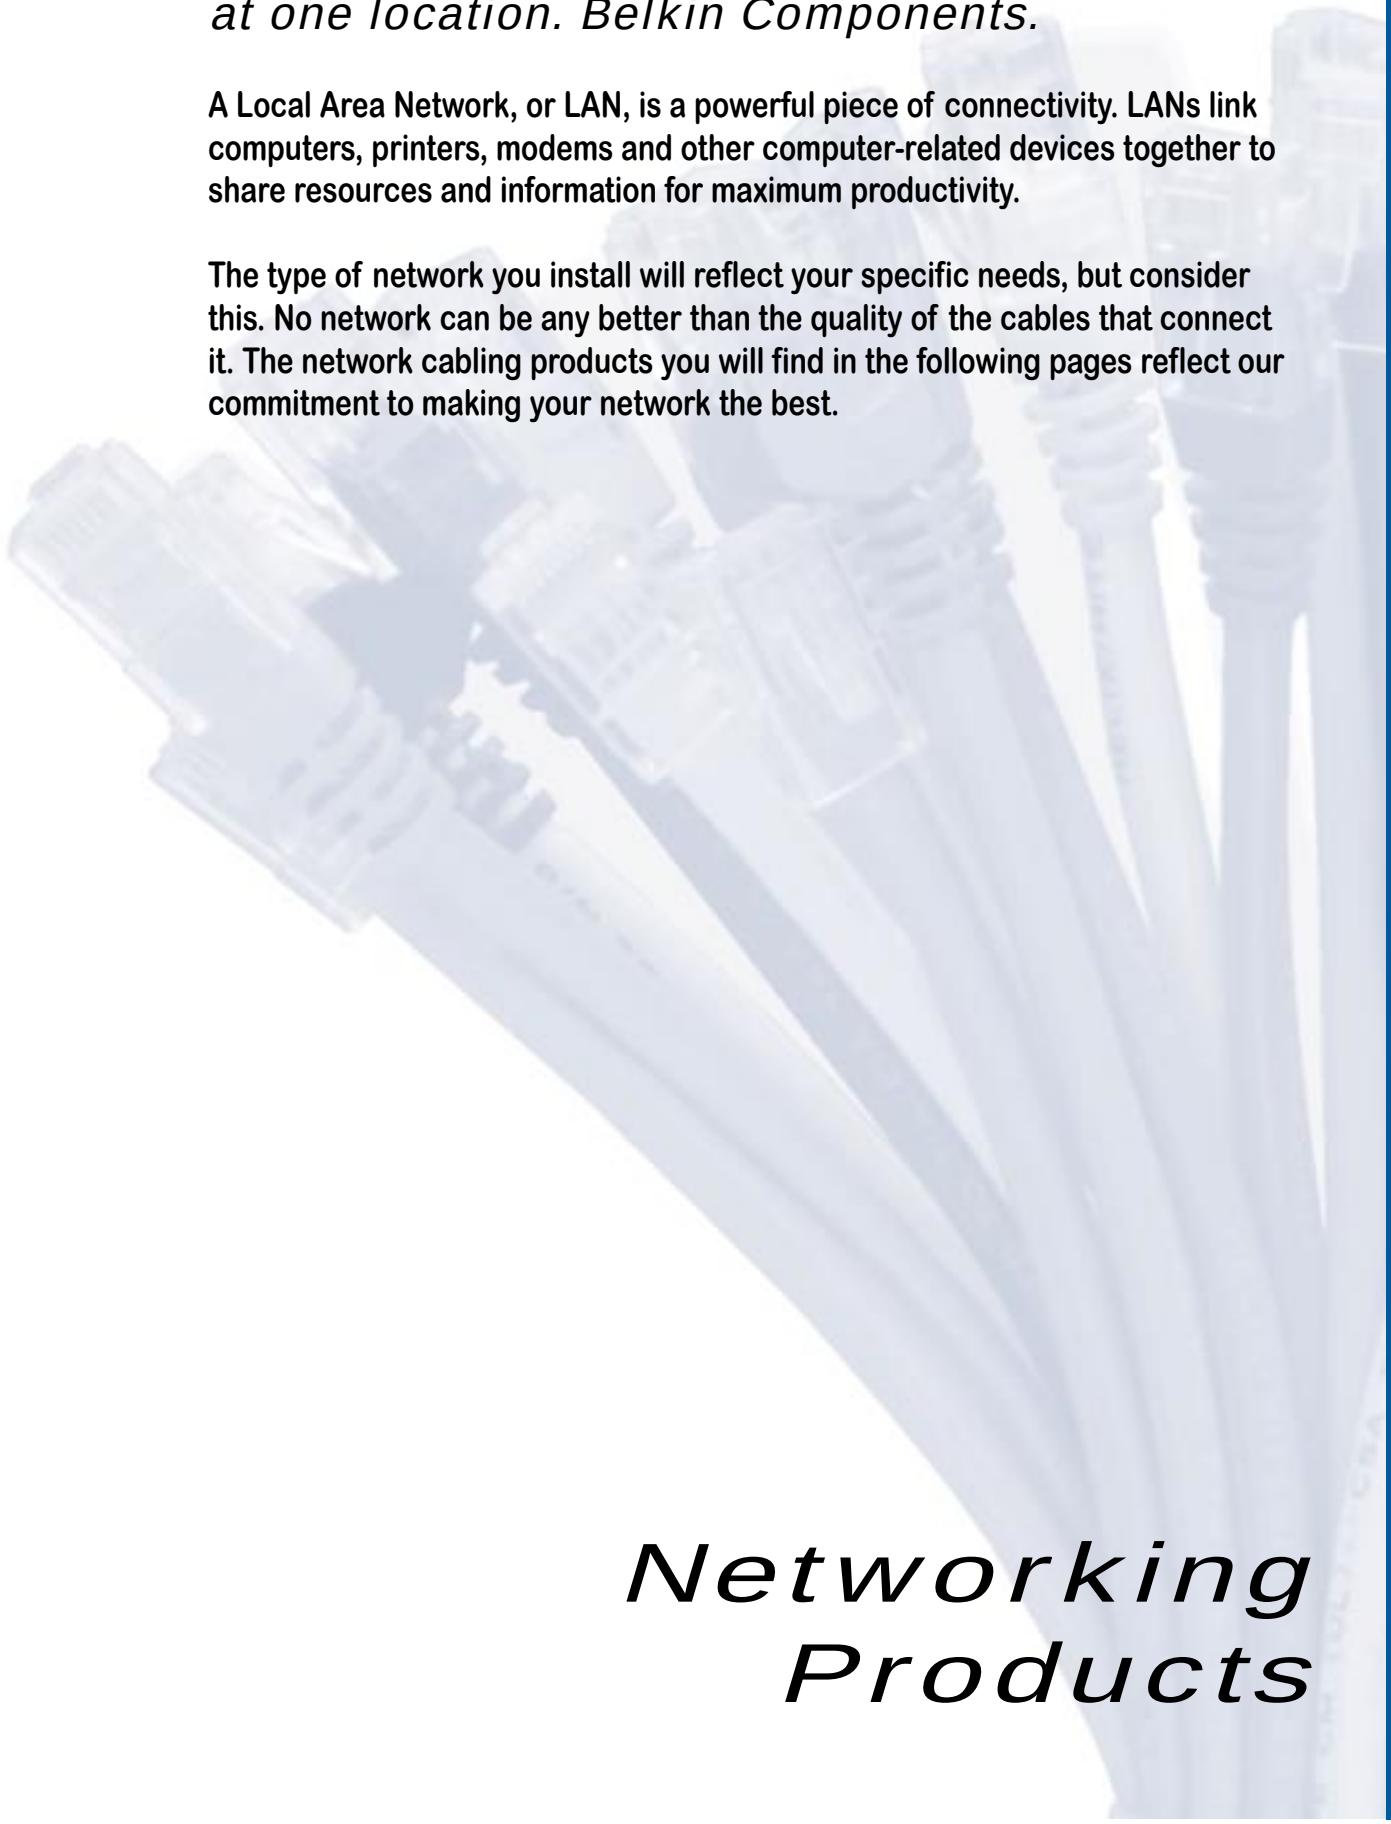
*The most comprehensive line of network cabling solutions in the industry can be found at one location. Belkin Components.*

**A Local Area Network, or LAN, is a powerful piece of connectivity. LANs link computers, printers, modems and other computer-related devices together to share resources and information for maximum productivity.**

**The type of network you install will reflect your specific needs, but consider this. No network can be any better than the quality of the cables that connect it. The network cabling products you will find in the following pages reflect our commitment to making your network the best.**



# Networking Products

## 10Base-T Category 5 Products (IEEE 802.3)

### CAT 5 Patch Cable Assemblies

**Belkin offers Ethernet 10Base-T patch cables and related products for any 10Base-T UTP installation. All of our 10Base-T products comply with IEEE 802.3 specifications.**

| | | |
|---|---|---|
| A3L791-03 | CAT 5, UTP Patch Cable, 3' | 7-22868-10838-3 |
| A3L791-07 | CAT 5, UTP Patch Cable, 7' | 7-22868-10406-4 |
| A3L791-14 | CAT 5, UTP Patch Cable, 14' | 7-22868-10402-6 |
| A3L791-25 | CAT 5, UTP Patch Cable, 25' | 7-22868-10404-0 |
| A3L791-50 | CAT 5, UTP Patch Cable, 50' | 7-22868-10917-5 |

A3L791-XX

A3L791-XX-M

### UTP Cross-Over Cables

**The UTP Cross-Over cable allows you to network 2 computers directly without the use of a hub. This application is perfect for computer gamers or anyone in need of an inexpensive solution.**

| | | |
|---|---|---|
| A3X126-08-5 | Cross-Over Cable, 8' | 7-22868-15114-3 |
| A3X126-10-5 | Cross-Over Cable, 10' | 7-22868-14174-8 |
| A3X126-15-5 | Cross-Over Cable, 15' | 7-22868-15064-1 |
| R6G089-SYN | Cross-Over Coupler | 7-22868-12234-1 |

A3L791-XX-S

**Belkin stocks a wide variety of 10Base-T cables in an array of colors. Our 10Base-T cables are also available with molded strain reliefs or "snagless" boots for hassle free network installations. Use the simple example below to specify the cable you need.**

Example:

*A3L791-XX-CCC-T*

***(A3L791) denotes the base part number for CAT 5 Patch***

***(XX) indicates the cable assembly length in feet***

***(CCC) indicates cable jacket color:***

BLU = blue
GRN = green
ORG = orange
RED = red
WHT = white
YLW = yellow
BLK = black
PNK = pink
GRY = gray

***(T) denotes the style of CAT 5 Patch Cable:***

M = Patch cable with molded strain relief

S = Patch cable with "snagless" boot over connector

H = Shielded cable & connector

P = Plenum

Absence of letter indicates standard Category 5 Patch Cable.

# Fiber Optic Cable

## Fiber Styles:

Fiber optic cable is offered in two basic styles: **Single Mode** and **Multi-Mode**. Single mode fiber is generally used in long distance, high-capacity voice applications like telephone transmission. Multi-mode fiber is the computer industry standard for data applications, including most local area networks or LANs.

## Fiber Advantages:

Fiber offers some superb advantages to copper cable. It has the ability to move massive amounts of data at very high speeds without electro magnetic or radio frequency interference. It is compact, highly secure, and maintains excellent data integrity even over great distances.

## FDDI (Fiber-Optic Distributed Data Interface):

FDDI is the standard that establishes minimum performance characteristics for cable fiber sizes and its recommended redundant ring topology.

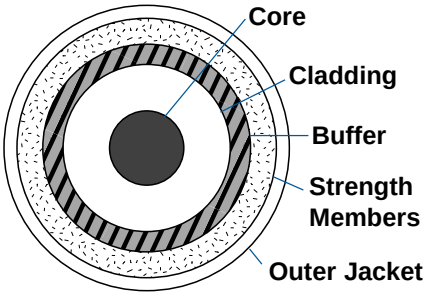
Fiber optic cable typically comes in pairs, with one fiber for data transmission, and the other for receiving. Zip cord, or Duplex, cabling is common within fiber networks, and consists of two fiber strands molded together.

## Construction:

The heart of the fiber optic cable is the glass fiber itself. This glass strand, called the **Core**, is surrounded by additional glass or **Cladding**, shown in Figure 1. The light pulses of data travel down the cable within the core, while the cladding reflects errant light waves back into the core.

Fiber is described in specific diameter terms using micron measurement, such as 62.5/125. This particular cable would have a core diameter of 62.5 microns, and an overall diameter, combining core and cladding, of 125 microns.

Figure 1:Fiber Cable Cross Section



Fiber cables can also have a **Tight Buffer** or a **Loose Buffer**. A tight buffer is a plastic coating directly on the glass itself that is break-resistant. Most indoor fiber cable is tight buffered. Loose buffer construction permits expansion and contraction of the cable without damage to the optical fiber, and is ideal for outdoor applications.

**Strength Members** are used to increase the durability of a fiber cable. Primarily for indoor installations, they allow the cable to support itself during installations and while hanging.

The **Outer Jacket** typically consists of either Plenum or PVC. PVC is commonly used for outdoor or external cabling, while Plenum is required for cabling through airways and walls.

Outdoor cable can have additional features, such as corrugated steel armor for protection against rodents and below-ground hazards.

What cable to use and what features it should have will depend on your individual needs and the particular installation environment. But whatever you require, you can be sure that Belkin will deliver!

## Fiber Optic Cable

### Fiber Optic Patch Cable Assemblies

**Note: All fiber optic patch cables are FDDI rated, 2 fiber (duplex, zipcord) construction, PVC jacket, 62.5/125 micron size, multimode, OFNR (riser rated). Custom sizes and configurations available upon request.**

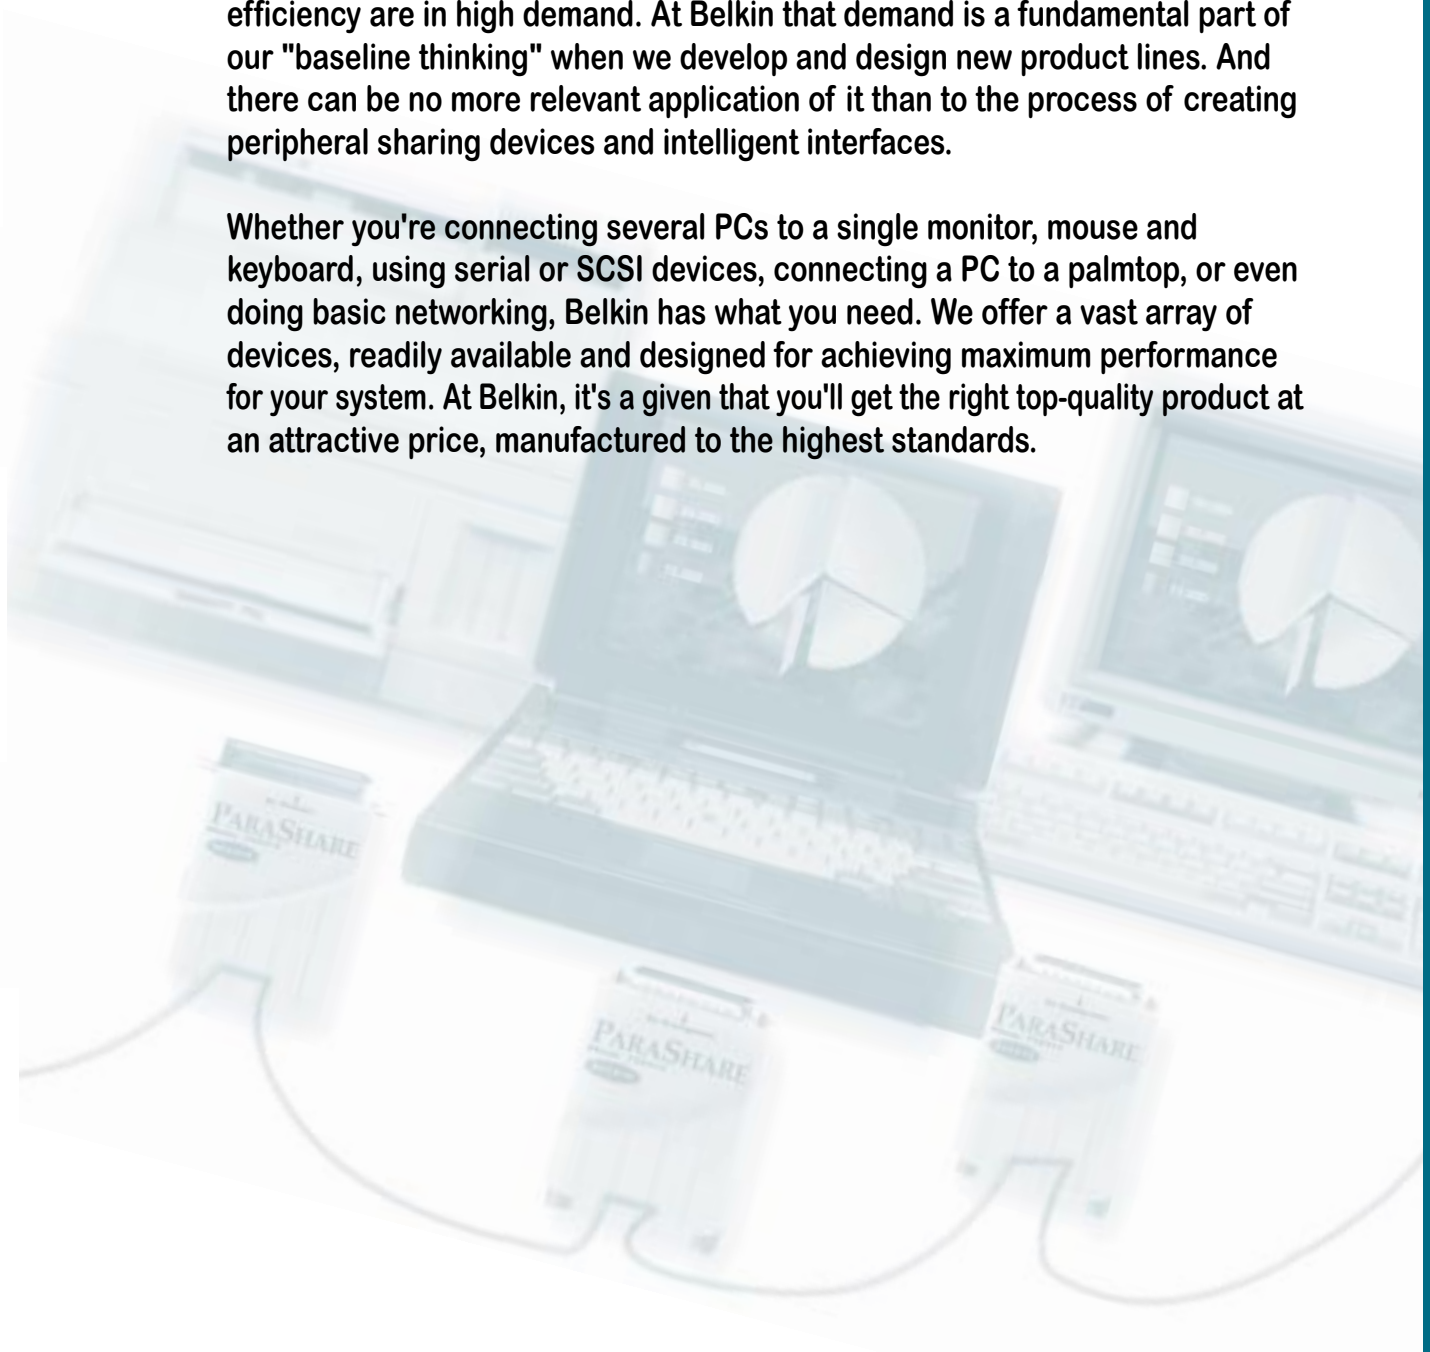
*Belkin offers the best peripheral sharing, networking and intelligent interface devices available.*

**In today's fast-paced and sophisticated business world, simplicity and efficiency are in high demand. At Belkin that demand is a fundamental part of our "baseline thinking" when we develop and design new product lines. And there can be no more relevant application of it than to the process of creating peripheral sharing devices and intelligent interfaces.**

**Whether you're connecting several PCs to a single monitor, mouse and keyboard, using serial or SCSI devices, connecting a PC to a palmtop, or even doing basic networking, Belkin has what you need. We offer a vast array of devices, readily available and designed for achieving maximum performance for your system. At Belkin, it's a given that you'll get the right top-quality product at an attractive price, manufactured to the highest standards.**



# Peripheral Sharing and Interfaces

# Bitronics Data Switch Kit

## The easiest and safest way to share printers and other parallel devices

Finally an easy way to use multiple parallel port devices has arrived! Belkin's new ***Bitronics Data Switch*** is the easiest and safest way to switch between Bitronics and IEEE 1284 printers, tape backup units, scanners, QuickCams, and EZ Drives - virtually any parallel port device! The ***Bitronics Data Switch*** won't slow you down, either, with full support for all advanced parallel port modes.

The ***Bitronics Data Switch*** is completely plug and play, requiring no software installation - simply attach cables, and you're done. Connect both your laser printer and scanner, your QuickCam and EZ-Drive, or your tape backup and inkjet printer. It's that easy! The Data Switch is also fully reversible, allowing connection of two PCs to a single parallel port device. The ***Bitronics Data Switch*** is the easiest, safest way to share parallel port devices!

***Switch Type:*** Manual Electronic
***Direction:*** Reversible
***Connector Type:*** 3 DB25 Female
***Cable:*** (1) 6' IEEE 1284 Cable for connection to computer (Part #F2A047-06)
***Connection:*** Full 25 line direct (parallel only)
***Mode Support:*** Standard, Compatible, Nibble,Byte, EPP, ECP
***Transmission Speed:*** Varies, dependent on parallel port mode
***Power requirements:*** No AC power required
***Size:*** 1" x 4" x 3 1/8"
***Weight:*** .85 lbs.
***Certification:*** FCC Class A, CE approved

*Belkin also provides the highest quality IEEE 1284 cables for use with parallel port devices:*
F2A047-XX Data Switch to Computer or Device (DB25M / DB25M)
F2A046-XX Data Switch to Printer (DB25M/36 Position Centronics M)

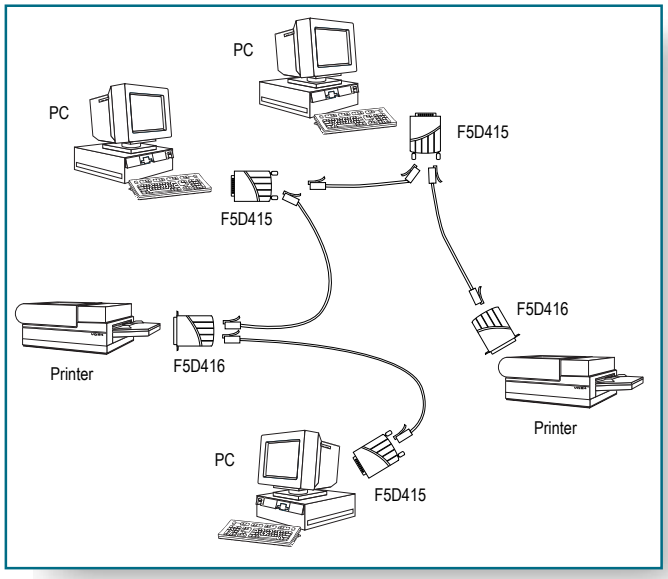
# ParaShare®

**The easiest, most productive way to share printers ever designed!**



## Features

- Complete automatic printer sharing under DOS, Windows®, or any OS combination
- Connects up to 8 printers and up to 24 computers
- Ethernet style networking under Windows 95®
- Easily expandable - add computers or printers in minutes
- Uses convenient RJ11 telephone-style cabling

***ParaShare®*** is the best fully automatic printer sharing system available; no printer switching utilities or hotkey sequences are required. Its modular, plug-and-play design lets you start with a small network, then easily add computers and printers as you grow. It takes only moments to install, and it works with any operating system, any PC, and any parallel printer!

***ParaShare®*** can change forever the way you use computers! It can even take advantage of powerful Windows 95® features to create a robust Ethernet-style network, all through the parallel port on your PC. ***ParaShare®*** is the perfect connectivity solution for small businesses and home offices.

*The possibilities are endless.*

| | ParaShare® | Other System Sharing Devices |

# Air Metro™

**Belkin's wireless printer sharing for up to 64 PCs and 8 Printers means no wiring, no installation cost and no software required!**

The ***Air Metro™*** Wireless Parallel Printer Sharing System breaks through the cabling barrier with the power of advanced military radio technology, eliminating the need for long parallel cables, parallel extenders or expensive installations. Printers may be located anywhere within a few hundred feet of computers.

***Air Metro™*** is guaranteed to print through walls, filing cabinets, furniture, cubicles, even floors and ceilings without errors! It prints at 7,000 characters per second, which is much faster than any parallel extender or network device. And with no software to install, it can be plugged in and powered up as quickly and easily as connecting a parallel cable.

## *Air Metro™ is Perfect for...*

- Isolated computers not easily accessed by cables
- Computers frequently connected and disconnected from printers
- System administrators who want reliable wireless printing
- Computers needing access to printers hundreds of feet away

# SmartBeam™

**Belkin's new SmartBeam™ Infrared Adapter is the smartest way to interface your IRDA-compliant or Sharp® ASK laptop, notebook or palmtop to a PC.**

- **Perfect for notebook, laptop or palmtop users**
- **Communicates with printers with infrared capability**
- **Excellent for travelers**

Need to transfer data or print without cables? Then ***SmartBeam™*** is for you! The infrared technology built into many of today's printers, advanced notebooks and palmtops is ideal for operation with our new serial IR adapter.

***SmartBeam™*** will link up to any IRDA-compliant or Sharp® ASK infrared port up to 3 feet away, and up to 6 feet away with a power supply. It also supports Windows 95® Direct Cable Connection, making it the easiest way to network two computers. ***SmartBeam™*** works with same serial communication software you already use to import, export or transmit data without decreasing data transmission speed.

Convert-A-Port™
Serial/Parallel Adapter

Convert-A-Port™
Parallel/Serial Adapter

# Convert-A-Port™ Adapters

**Belkin's Parallel Extender makes your long-distance parallel printing effortless and efficient with simple plug and play installation! It's a triple-play. Convert serial to parallel, parallel to serial, or print long-distance! We've got all the bases covered.**

- **Support serial baud rates up to 115.2 KBPS**
- **Uses convenient RJ11 telephone-style cabling**
- **No software required; just plug and play**

***Convert-A-Port™*** Adapter Kits offer the easiest way to connect a parallel printer to your serial port, or a serial printer to your PC's parallel port, without any compatibility problems. All ***Convert-A-Port™*** models use standard RS-232C serial communication.

The ***Parallel Extender*** includes a pair of these adapters, which can be used to enable parallel printing at distances of up to 1000 feet, shattering the traditional 25-foot parallel limitation. There is no more versatile, efficient way to make connections than with Belkin's ***Convert-A-Port™*** adapters. All components carry a full one-year Belkin Product Warranty.

# PalmTop Manager™

**The powerful sharing connection between a PC and your Sharp® Wizard or Zaurus® Palmtop!**

Belkin Quality one year 1 warranty Guaranteed!

Belkin's ***PalmTop Manager™*** is the essential link between a PC and a palmtop. Now all your valuable contact and personal scheduling information can be shared directly with your PC, without concern about data loss or equipment failure. The ***PalmTop Manager™*** includes all necessary cable and software for sharing your data with popular Windows® applications like Act!, dBase, Lotus Organizer, Microsoft® Word, Schedule+, Calendar and WordPerfect. Back up all your addresses, schedules, to-do lists, memos and more to your PC with just the click of a button!

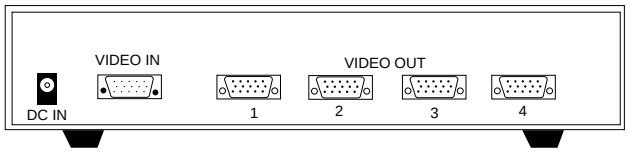
# ExpandView™

## Connecting multiple monitors to a single PC is finally affordable and effective

***ExpandView™*** is a boosting device that duplicates the video output from a single PC to multiple monitors, allowing a computer to display images on up to eight different monitors. It's perfect for trade shows and store display where the same image or video content needs to be shown on more than one monitor. ***ExpandView™*** can be used with monitors as far as 200 feet away, and may be cascaded for virtually unlimited display.

F1D068



F1D068 - Rear View

- Perfect for tradeshows and in-store demonstration
- Connect 4 or 8 monitors to a single video output
- Extend monitors to distances as far as 200 feet from the computer
- Cascade multiple *ExpandView™* units for unlimited display
- Monitors are connected with their existing cables
- Conserve space and save money on power and equipment

Full IEEE 1284 High-Speed Communication!

# BITRONICS AutoSwitch

## Now up to four computers can share a single HP® Laser or Deskjet IEEE 1284 printer!

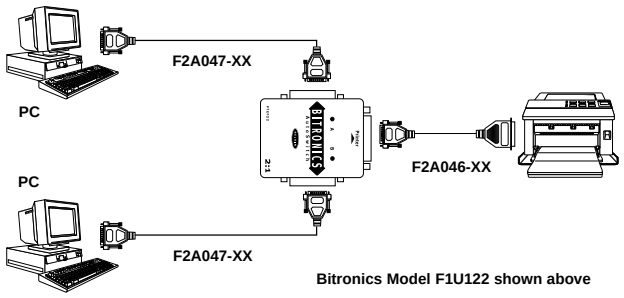
4 Port Bitronics AutoSwitch
F1U124

The Belkin ***Bitronics Autoswitch*** takes full advantage of the features and capabilities of HP® bi-directional printers to provide you with multiple access and shared flexibility. Your HP® Laser and Deskjet printers can now send complete printer information messages such as "paper jams," "printing status," "printer off-line," "out of paper" and others to two computers simultaneously.

The ***Bitronics AutoSwitch*** also features adjustable time out settings, easy plug-and-play installation, and no AC power requirement. In fact, it doesn't even require any software! It supports all advanced IEEE parallel port modes, including EPP and ECP. ***Bitronics AutoSwitch*** is clearly the most convenient and powerful IEEE 1284-compatible switch available.

2 Port Bitronics AutoSwitch
F1U122

### Cable Installation



The Belkin ***Bitronics AutoSwitch*** is compatible with most IEEE 1284 compliant printers, including the following:

- HP® LaserJet 4, 5, and 6 series
- HP® DeskJet 600x, 660x, 820x, 850x and 1600x series
- Canon® BJC-600 series
- Canon® LBP-430W
- Epson® EPL-6600
- Epson® Stylus IIs
- Okidata® OL-600e and 610e
- IBM®/Lexmark® WinWriter 150
- Panasonic® KX-P6500

F5B001

The Belkin ***Parallel to SCSI Adapter*** is the perfect, inexpensive way to connect up to 7 SCSI devices to any parallel port. With the ***Parallel to SCSI Adapter***, there's no need to install a SCSI port in your desktop or notebook PC. The ***Parallel to SCSI Adapter*** allows you to connect a CD-ROM drive, external hard drive, scanners or just about any SCSI device. And we've included a parallel pass through port so your printer always stays connected. Recent tests show that the Belkin ***Parallel to SCSI Adapter*** transfers data at *over 600,000 bytes per second.* That's up to three times faster than other adapters on the market!

# Sprinter II™

**Enhance your printing capabilities!**

The Belkin ***Sprinter II™*** is an excellent printer sharing device for users who require "printing without waiting." With the ***Sprinter II™***, you can cascade multiple units to allow as many as 90 serial computers to share up to 36 printers! The ***Sprinter II™*** is a powerful buffering device. Standard units are shipped with 256K of RAM (random access memory), but it can be shipped with or upgraded to a maximum of 16 megabytes of RAM, satisfying the toughest requirements for memory. The ***Sprinter II™*** is fully compatible with our ***Convert-A-Port™*** units on page 78, allowing flexibility in connecting to PCs and printers.

HOT ITEM!

* Autoswitch Plus Options are upgradeable to 2MB in the following Buffer Card options: 256K, 512K, 1MB, 2MB.

## AutoSwitches

**Belkin's state-of-the-art AutoSwitches are the easiest way to share printers. AutoSwitches are available in parallel and serial versions, and in a variety of combinations. Our entire line of AutoSwitches comes with a full one-year Belkin Product Warranty.**

### AutoSwitch Plus Options

**The AutoSwitch Plus Options is the perfect solution for demanding print sharing applications. These models allow up to 8 PCs to share a single parallel printer, and allow buffer memory upgrades which dramatically increase the printing speed. These autoswitches use standard printer cables (Belkin Part #F2A032-XX) for both input and output.**

## Compact Parallel AutoSwitches

**Compact, convenient, and cost effective - a perfect combination. These flexible AutoSwitches install quickly and easily to allow 2 or 4 PCs to share a parallel printer. These models use straight through cables (Belkin Part #F3D111-06) to connect to PCs, and standard Parallel printer cables on output (Belkin Part #F2A032-06).**

| | | |
|---|---|---|
| F1U115 | 2-Port Compact Parallel AutoSwitch Allows 2 PCs to Share 1 Parallel Printer | 7-22868-10273-2 |
| F1U117 | 4-Port Compact Parallel AutoSwitch Allows 4 PCs to Share 1 Parallel Printer | 7-22868-10274-9 |

## Compact Parallel Reversible AutoSwitches

**Belkin's Reversible AutoSwitches are capable of sharing one printer between 2, 3 or 4 PCs or can be used to connect one PC to 2, 3 or 4 printers. Includes easy-to-use Windows 95®/3.X and DOS software for printer selection. These models use straight through cables (Belkin Part #F3D111-06) to connect to PCs, and standard parallel printer cables on output (Belkin Part #F2A032-06).**

## Installing Your Belkin Macintosh® Data Switch

Control Multiple Macs®!

*Our Sales Representatives will be happy to answer any questions you have! Call (800)-2BELKIN to order!*

*Belkin's Power Protection products are the envy of the industry. That's because we offer surge solutions second to none!*

Over ten years of committed experience and thousands of hours of development have made Belkin the acknowledged leader in the power protection industry. We value our position highly, and realize that to maintain it we must always put our customers first.

Our surge protection product line is simply the best available, period. It's also the most varied and attractively priced. From our economical Home/Office Grade models to our Maximum Grade SurgeMaster™ II Premiere series, you can rely on Belkin to provide all the protection you need for today's high-performance electronics. Quality is so important to us that we obtain Underwriters Laboratories UL 1449 rating of 330 volts on every SurgeMaster™ we sell. That is the highest rating UL offers.

We've also made it easier than ever to choose the right protector. Just select the protection level you desire from the chart on the following page and the perfect surge protector is quickly indicated. We offer hassle-free Connected Equipment Warranties, and we'll replace any defective product for life!

So whether you need to protect a basic home computer, laser printer or an entire local area network, Belkin's got the right protector at the right price.

Unlimited
Connected Equipment Warranty
Belkin will repair or replace, for the life of the product, any properly connected equipment that has been damaged by an AC surge (including lightning strikes) up to a value of $25,000 (details inside).
All Surge Protectors Are Backed By A Full Lifetime Belkin Product Warranty Against Defects In Workmanship!

# Belkin's Unique Features

## 360º Rotating Flat Plug

**Belkin's SurgeMaster™ II Gold Series (Model #'s F5C895-TEL, F5C795-TEL, F5C795 and F5C695-DSS) provide you with our unique Rotating Plug, allowing you even easier access to the best surge protection available today!**

## Thermal Fuse

**Every SurgeMaster™ has a thermal fuse for protection against lightning strikes! Although thermal fuses are not required by UL until 1998, we have already incorporated thermal fuse technology into all of our surge protectors.**

## BlockSpace™

**We've designed our new Superior and Maximum Grade surge protectors to handle two AC adapters and still have six outlets available. Unlike other surge protectors, we don't make you sacrifice an outlet to plug in an AC adapter.**

## Cable Management Labels

**These Cable Management Labels are used to identify and organize your computer equipment cords. Just place a color-coded label on your equipment cord and the corresponding equipment icon label on the surge protector outlet.**

## Sidactor

**This brilliant sidactor provides solid-state phone/fax/modem protection. Unlike traditional components, a sidactor will never wear out, so protection lasts forever.**

Includes Artisoft® CoSession Remote™ host & viewer software:
(a $79 value)

## PC OnCall™

*Remote Access Power Center*

- Power Up Your PC From Anywhere
- Access All Your Faxes and Files
- Remotely Run Software Via Any Touch-Tone Phone

$25,000 Connected Equipment Warranty

PC OnCall™ is an innovative access module for on-the-move users, that gives full remote entry to office and home PC files and systems by phone from anywhere in the world. Upon powering up their computers, users can remotely run programs, check e-mail and faxes, access data, print reports, transfer files, or observe the operations of another PC. It even has programmable touch-tone codes to prevent unwanted access. PC OnCall™ is the latest surge protection technology, coming with full 3-line AC protection rated at 980 Joules and a $25,000 connected equipment warranty. It also features a heavy-duty 8' power cord, five individually controlled outlets, and a static discharge plate. It is UL 1449 approved at 330 volts.

## The Latest in Surge Protection Technology:

**Belkin is committed to offering state-of-the-art technology at an affordable price. Only the highest quality components are used and each Belkin surge protector has been tested to meet or exceed all applicable standards. Take a look inside our top of the line models and you'll find...**

***Heavy Duty Power Cord***
The highest quality cable available reduces the risk of electric shock.

***Oversized Metal Oxide Varsitors***
Provides the best protection across hot, neutral, and ground lines.

***Thermal Fuse***
Prevents high-voltage surges and lightning from reaching your valuable equipment.

***Film Capacitor***
Provides additional elimination of AC line noise.

***Surge Protection Indicator***
Ensures you that your equipment is protected.

***Up to 8 Surge Protected Outlets***
More outlets available than other surge protectors on the market.

***High Impact Plastic Case***
Non–metallic case eliminates risk of shorts while maintaining durability.

***Secondary Fuses***
Prevents high-voltage surges and lightning from reaching your valuable equipment.

***Lighted Switch with Integrated 15 AMP Circuit Breaker***
Indicates power status and safeguards equipment from high current overloads.

***Audible Alarm***
Informs you when the surge protector needs to be replaced due to a massive surge or multiple surges.

***Heavy Duty Ferrite Core Filter Rod Inductors***
Filters Electro Magnetic and Radio Frequency Interference, preventing data corruption and system crashes.

***Wiring Fault Indicator***
Alerts you to improper/reversed hot and neutral lines in building wiring before you connect your equipment.

***Secondary Outlets Available for Special Applications***
Models equipped with phone line protection for modems, fax, or telephone protection.

***BlockSpace***™
Allows more room for large AC adapters.

***Sidactor***
Provides Solid State protection for your phone/fax/modem line.

Surge Protection Chart

*Belkin. Your One-Stop Cellular Supplier!*

**From our high-quality construction to our affordable prices, Belkin cellular phone accessories deliver maximum consumer satisfaction. Choose from our wide selection of individual accessories, or pick up one of our convenient accessory kits. Either way you have all the essentials for your phone with the quality and reliability that comes with the Belkin name.**

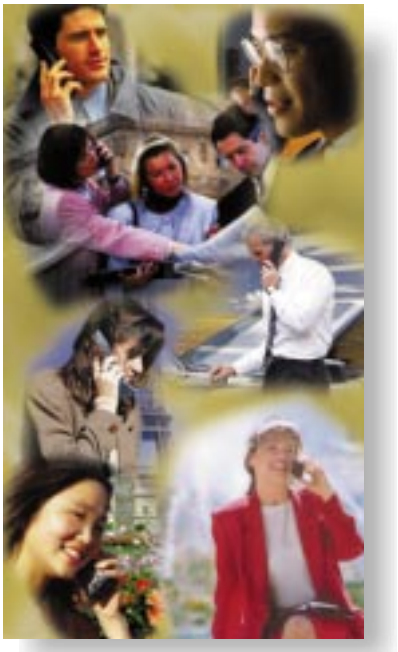
# Cellular Accessories

# Cellular Accessories

Belkin produces a comprehensive line of cellular accessories with a single goal in mind: *to keep mobile communications mobile.* We have given this category exceptional selection, creating a product line that caters to everyone's cellular product needs.

## Battery Charger/Conditioners

Our premium ***Battery Chargers and Conditioners*** keep cellular batteries operating at peak performance. Our charger also "conditions" the battery to maximize life and prevent "memory effect."



## Replacement Batteries

Belkin ***Cellular Batteries*** are the highest quality available. Choose from Slim, Standard, or High Capacity styles in Nickel Cadmium, Nickel Metal Hydride, or Lithium Ion.

## Protective Leather Cases

Our ***Genuine Leather Cases*** with stylish reinforced stitching provide the utmost protection for your phone. Their precision design affords full functionality and a sure fit regardless of battery size.

## Battery Saver/Chargers

Belkin ***Battery Saver/Chargers*** plug into any vehicle's cigarette lighter socket, and provide unlimited talk and stand-by time.

## Portable Hands-Free Kits

The ***Hands-Free Cellular Kit*** allows you to drive safely while still enjoying all the benefits of your phone. Enhanced features include a "clip anywhere" mike, extended plug-in adapter and adjustable volume control.

## Starter Kits

Belkin ***Cellular Accessory Starter Kits*** bring together all of our most popular cellular phone accessories in one convenient package. Each kit features just the right battery, case and power cord for the specific models listed.

For a complete listing of Belkin Cellular Accessories, see our cross-reference chart on pages 104-105.

**Packaging: Our Cellular Accessories packaging practically sells itself! Each is color coded by manufacturer to identify its purpose and compatibility, with the part number, UPC code and Belkin Warranty prominently displayed. On the back are helpful product specifications, performance data and clear use instructions. The card's small footprint is an easy fit in the store, and the heat-sealed blister strongly discourages theft. Belkin even offers a private labeling program.**

Nokia
Compatible Battery
800maH NiCD
Replacement Battery
Rated: 4.8 Volts
Provides: 100 minutes of talk time and 22 hrs. of stand-by time. Refer to the chart below for battery performance.
The Belkin 800maH NiCD Replacement Battery is manufactured using high grade certified cells and quality components. They have been tested to meet the electrical current and voltage requirement standards to provide 100% compatibility with your cellular telephone.
Battery Installation and Charging
Fully charge your battery a full 24 hours before use.
Turn-off your cellular phone. Remove the old battery and replace it with the new battery.
Fully discharge your battery before recharging to avoid any memory loss in your battery.
Caution:
Always recycle your battery. Disposing your battery is hazardous to the environment.
Keep the battery away from fire and water. Exposure to fire will cause explosion.
Compatible with Nokia 636 & 638
BELKIN

*It's all about communicating!*

**Audio/Video/Phone Accessories is one of the most popular and high-energy categories at Belkin Components. We've made a serious commitment to the home and the office with these product lines, and we're proud of their variety and excellence. Clarity and precision are extremely important in communications and entertainment equipment, and all of our A/V and phone accessories have just one purpose: *to deliver maximum performance and enjoyment.***

# Audio/Video/Phone Accessories

## Audio Accessories

**Belkin Components appeals to the audiophile, the serious music listener. With today's electronics and speakers improving the dynamic range of sound, cables become increasingly critical in the delivery of your music. You don't have to compromise the integrity of your audio components; just use Belkin's audio interconnects, then sit back and enjoy the full, pure sound of your system.**

### Speaker Cables

**Our 16 and 18-gauge speaker cables deliver greater sound clarity by utilizing oxygen free copper conductors and high strand counts.**

## ErgoPAD® Premiere Mouse Pads & Wrist Rests

**The ErgoPAD® Premiere mouse pad and wrist rests reflect Belkin's dedication to developing the highest quality and function in ergonomic products. We specifically designed the ErgoPAD® Premiere line to reduce the likelihood of repetitive motion stress disorders, such as carpal tunnel syndrome, so you don't have to risk personal injury.**

## Belkin Bulldog Tools and Tool Kits

**Having the proper tool for the job is as important to the do-it-yourself electronic enthusiast as it is to the professional. Our wide selection of multi-purpose computer tools handle upgrades, repairs, cleaning, routine maintenance and adjustments with ease. Kits come in assortments of 11, 20, 36, 55, and 65 pieces respectively. All tools are fully demagnetized to prevent damage to sensitive hard drives and magnetic media, and all items carry a full one-year warranty. Every kit features a durable vinyl, zippered carrying case with custom fittings for each tool and accessory.**

# Custom Cable Specification Form

Please fill out form completely and fax to Belkin Components at (310) 898-1111. If you need assistance please don't hesitate to call us at 1-800-2-BELKIN.

## Connector Side A

**Device:** _____

**Connector Type:**
(circle appropriate connector)

DB9
DB15
High Density DB15
DB25
5 Pin Din
6 Pin Mini Din
8 Pin Mini Din
DB37
DB50
High Density DB15
36 Position Centronics
50 Position Telco
RJ11 4 Conductor Modular
RJ12 6 Conductor Modular
RJ45 8 Conductor Modular
M/50
V.35
Other: _____

**Connector Gender**
(circle appropriate gender)
Male Female

**Hood (if applicable)**
Plastic Hoods will be used unless specified otherwise.
Metal Hoods
Metalized Plastic Hoods
Other: _____

**Special Cable:**
(circle if required)
Plenum
Extended Distance
Other: _____

# TO BE CONTINUED!

At Belkin, that could almost be our mission statement as we continue to strive for excellence in all our endeavors. We look forward as well to continuing our relationship with you, our customer. You are the most important element in our equation for achieving excellence.

Commitment, quality and service are not just high-sounding words to the employees at Belkin. They represent a valued opportunity for professional performance at the highest personal and team levels. We are proud of who we are and what we do as a company, and we take pleasure in our work.

Thank you for being an important part of the Belkin success story.
